

Scrying the Uni-verse

We are being communicated with every second of the day and night for that matter! We are a collective that is intuitively connected, so we can help but communicate with one another. There is only one overall message though, and many ways of getting it across. Our blindness requires hearing the message many times and in different ways.

Some symbols show up in the least likely of places, which means you have to be somewhat awake and aware to catch them. Like in the movie Iron Man. It appears to be one more superhero movie...but wait. What part of Iron Man the man (Tony) gets wounded? What is the shape of the device Tony builds to fix his heart? Where are the pulse centers on Iron Man's suite located? What kind of device does a flying machine need? What is the lesson he learns through his experience??? One more for ya! Do you know what element was used when just a few days ago CERN successfully created their first black hole???

Another movie that is coming out in the next month is "The Green Lantern."

Wikipedia: "Each Green Lantern possesses a [power ring](#) and power lantern that gives the user great control over the physical world as long as the wielder has sufficient willpower, intelligence, imagination and strength to wield it. The ring is one of the most powerful weapons in the universe, and can be very dangerous. While the ring of the [Golden Age](#) Green Lantern (Alan Scott) was magically powered, the rings worn by all subsequent Lanterns were technological creations of the [Guardians of the Universe](#), who granted such rings to worthy candidates."

Isn't that lantern interesting? It is his battery...the source of his power. It looks an awful like a vortex! It is also GREEN; the color associated with the heart chakra!!

To the left is the "All Spark" from the Transformer movies. The AllSpark is an artifact that all life sprang from. Megatron is the one after the ALLSpark in the movie. It is a huge energy source that gives and supports life. Hmmm this is a lot like the Metatron Cube, Mecca and a lot more.

Speaking of Tron, the original movie had many references to the "matrix." In the movie Tron each person carried a disk (chakra). This disk was their source of power, it recorded everything and held one's programming.

There are many more movies that carry information about our coming transformation like the "Avatar," "The Matrix" one of my favorites, "Men Who Stare at Goats," "The Last Air Bender," the Sorcery movies and much more. I don't have time to dig deep into them, but you can see them and watch for the messages. **Orion's Cube???**
