LOGOS

The Vessel that Carries God's Essence

In "The Matrix" Neo (Christ) takes the vessel called "Logos" to meet the Source. -Collective Reflective

Sangreal = Holy Grail (vessel) = The Real Song of the Uni-verse (one song).

When our vibrations are in right accord we are a vessel/instruments of God.

What do you do when you **REALize** (see) the root cause of an experience you prefer to not have or repeat?

1. Focus on re**SOLUTION**

or

2. Focus on **Issue** (is you), which according to QP means you will get more of it.

These guys are always focused on what is wrong.

I wonder if they are helping to create that which they don't want???

-David Icke

-Alex Jones

cr**EATe** = what you d**INe** on (let into your mind and body) is what you create.

The tricky part to changing reality is to be able to see what is holding the energy in a certain pattern which is bringing discomfort (physically, emotionally, mentally and/or energetically) and then **turn from it on ALL levels**. To even speak of the problem attaches you to it.

- Seeing the Problem:

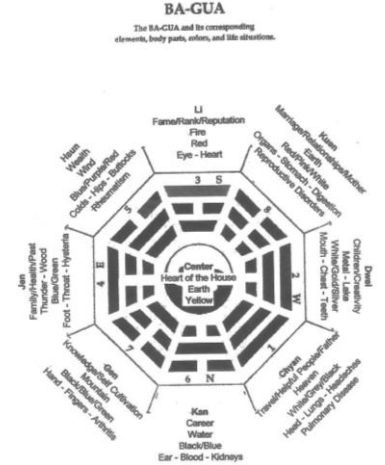

Imagine your problem as Medusa. The world reflects your problems to you through the Multi-Layered [Quantum Hologram](#). In seeing the reflection you can begin to move away from the pattern, but if you choose to continually look at your problems you will become as stone!!!

- Making a Change:

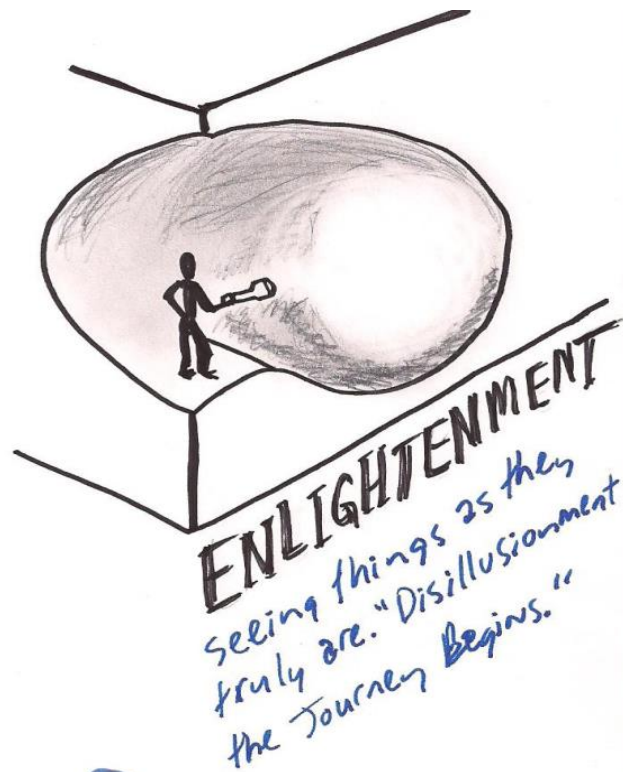

This makes me think of the story of Sodom and Gomorra. When you start to walk away from what you do not want...DON'T TURN BACK!!...or you will become frozen...stuck.

It's ALL a Hologram

Hologram = Messages reflected in empty space.
 God is calling out to you asking you to **Holla Back**
aka wakeup to your true-self!!

Auric Field = Luminous Egg

In *The Subtle Body in Western Tradition*, Gnostic scholar **G. R. S. Mead** cites the *lost writings of Isidorus*, the husband of Hypatia and one of the last Gnostics who taught at the Mystery School (the Museum) in Alexandria. Isidorus' original work is lost, but it was paraphrased by another writer, Damascius, so a few faint indications of his teachings can be surmised. Isidorus is said to have described the *augoiedes*, "golden aura," comparable to the luminous egg of Castaneda.

The nature and operation of the *augoiedes*, also called the auric egg, was one of the deepest secrets of the Mysteries. Apparently, a lost treatise of Isidorus stated that the *augoiedes* surrounds the human being like an oval membrane, in such a way that the physical body floats in the oval. **This is precisely how Castaneda describes the luminous egg.**

Heart = Assemblage Point

What direct us to align certain patterns of energy is Intent, which is the force that the Infinite uses to create and manifest everything in the universe. Every being in the universe aligns these patterns of light as directed by the Infinite. **The assemblage point is that area on the luminous egg where the energetic patterns of light that our body is made of intersect with the energetic patterns of light of the greater universe.** As a result of this alignment, perception occurs.

Changing Views – Changing Worlds

Toltecs don't believe in a quote “physical world” instead the world you perceive as reality is your self-reflection reflected on the round walls of your luminous egg. Your self-reflection is just your life mantra the thoughts you think your agreement that the world is made up of solid objects etc. just how you think the world is, no right way or wrong way, In this way the world can be made to behave more to how you think it is as opposed to the uncertainty that's really out there waiting for you. The key point here is if your assemblage point moves beyond others ability to perceive then you disappear from their view. Examples Angels, Aliens etc.

Mastered...you could tune into what ever reality and what ever level you wanted.

There is a concept of the **assemblage point** the point where awareness is perceived on your luminous egg as this point moves across the luminous egg different possibility become perceivable.

Residual Self

Residual Self Image = **Default Unconscious Mental Projection**

“DUMP” for short...as in **“This place is a DUMP!”**

What we believe about ourselves and the world around us (consciously and subconsciously) is what we create and experience. We cr**EAT**e by default...by what was put into our minds (what we swallowed) by parents, teachers, preachers, peers and ourselves.

What I call “The passing of the poisonous apple!!”

This is downright scary!!

Endless Possibilities

(Probability Patterns)

The observer changes the observed.

If there are truly endless possibilities then we are freer than we think.

However...everything and anything may be probable, but what determines what happens...what shows up in our lives?

If the subconscious is running the show and we don't know everything that is in our unconscious then reality is a default. In other words instead of being a part of the creative process...we just let it happen to us and complain about it. Then we make up false concepts to explain this **Default Creation** like..."God is teaching me a lesson." ... "This is my Karma." etc etc etc.

“I’M PROBABLY” Drive

Even faster than light or even ludicrous speed, the **Infinite Improbability Drive** allows the fictional ship The **Heart of GO(L)D** to go anywhere, no matter how improbable. -"The Hitchhiker's Guide to the Galaxy

“Very probably!”

Impossible = “I’m Possible!”

Taking Over the Creating Process

We simultaneously create and perceive our world!!!

“Get in the middle of the process
by taking over the creative process!!!”

The Subconscious fills in the details!!
What is in the subconscious??

LOGOS

-How to takeover the creative process-

Words are thing!! Whether said out loud or inside your head. They have real power.

“In the beginning was the WORD, and the WORD was with God, and the **WORD WAS GOD.**” John 1:1

GOD = MAGI

What is GOD?

Do you ever think what God is? How did God make what we call the “known universe”? What did God make it out of? If God made it from himself then what does that mean???

How do we create? With mental energy! All that mankind has made has come from our **iMAGInation!!** MAGI = **MAGI**cian = 3 wise men from the EAST

A true **MAGI** can control the elements as indicated in this tarot card. Fire, Metal, Water and wood... the 5th element earth is what we are: Earth = HEART. We are the EARTHlinks, which are meant to bridge Father (nonphysical-wave) with Mother (physical-particle).

Let's say you take a picture with your cellphone and you email it from your phone to your computer. What is being transferred?

People know how powerful words and numbers are. Images are non-verbalized words. You know how they say "An image is worth a thousand words"? People use their words and images in order to manipulate and enslave you. "Unhappy? UnFULLfilled? Well, we can fix that for \$19.99."

Do you know why they always use .99 at the end of most prices? Because nines are invisible. 19.99 looks like 19.00 but it is only .01 away from 20.00
