Out There

We humans tend to look at the world as if what we need is separate from us. When we do that, consciously or unconsciously, we create space-time. The thing we want or need is “This” far away. We even go as far as to assign how far away it is and how long it will take to get it.

On top of that there is a tendency to perceive there is something in the way of us getting what we need. Like a barrier or veil that we need a special key or special knowledge to open the door to the desire.

Kicked Out = Not In There

I personally believe this deep feeling that what we need is separate from us and that it takes great effort to get it comes from the erroneous teaching and resulting belief that we are some how separate from God. That God actually kicked us out of his Garden. Like that could ever happen because the whole planet is the garden.

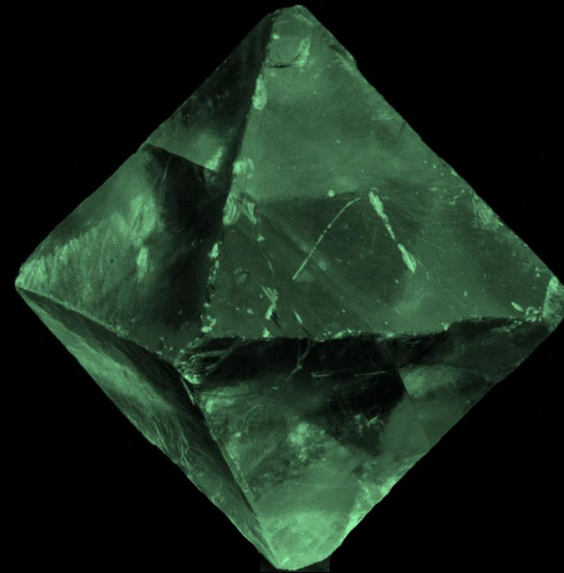

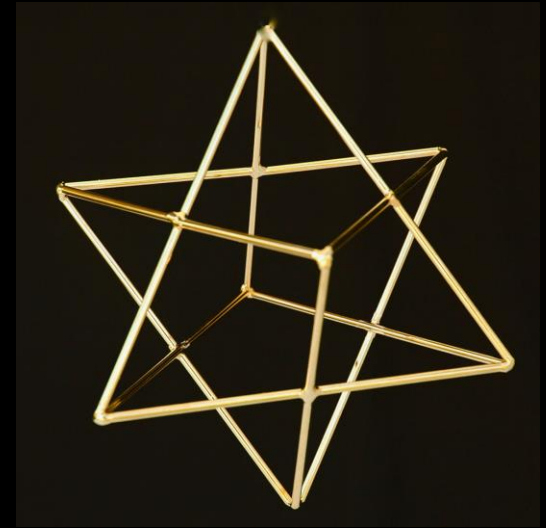

Thinking like this leads to the conclusion that God can be pretty much anywhere “out there” just not near us and definitely not INSIDE US!

LOOK OUT!!!

This tendency to look out instead of in shows up in many different ways. For example, the Star Tetrahedron aka Mer Ka Ba shape is focused on when the heart of the matter happens to be what the Star Tetrahedron is born from.

At the center of the Star Tetrahedron is the Octahedron. One of Plato's Platonic Solids. It represents the Air element, which is the element of the Heart Chakra. The Mer Ka Ba is a stellated Octahedron.

So...let us start looking IN!

Seed of Life

We, like this apple, have the same make up as the universe. Everything that is in this universe came from inside itself. Just like an apple seed has a tree some 1,000x and in some cases more than its seed size.

There is also Sacred Geometry aka Life's Structure in the apple as in ourselves.

Seed of Life

Each apple has the seeds of new trees (universes) that will give birth to new apples, and so on.

A female child is born with most of the eggs she will ever have numbering in the 100,000s.

Seed of Life

The tiny seed contains the
Source-Code to become a tree
and birth new life itself!

Frequency

What is your Frequency?

The Thoughts and Feelings
you entertain/entrain to
the MOST OFTEN!

FREQUENTcy

Radio – Radiate – RADIATION

You reap what you sow!

You become what you
attune to. This is why it is
so important to be
Consciously Selective about
what you tune into!!!

Your FREQUENTcy matches a
station, you pick up the station and
you then BROADCAST it out. You
become an extension of that
Station (IN-FORMation Portal).

BROADCAST = Sow by Scattering

Station in Life

“station in life” is a British phrase referencing your status in your community, and can include such things as age bracket, marital status, whether or not you have children, whether you are a priest, religious or layperson and work status etc.

Your Wi-Fi is Wi-FO things show up in your life!

Did you attract the Station or was it already there and you simply tuned into it?

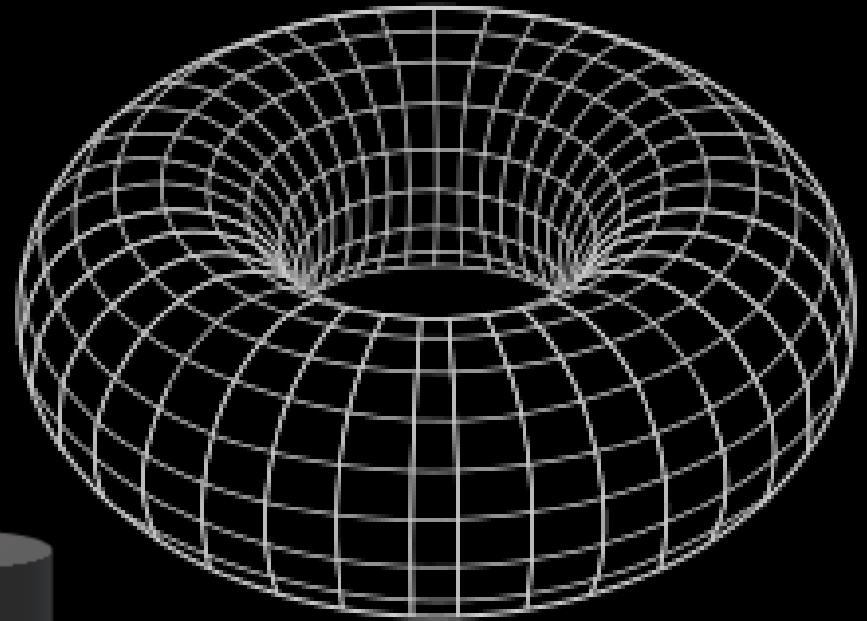

Round and Round

Focused “out there” we look at the swirling Toroidal Field and miss the Core or Heart of the MATTER. The field is the Radio-ation of our Station!

The Torsion Tube aka Torah with its 7 seals aka chakras is the Dialer.

It is inertia aka Pure Potentiality. The Toroidal Field radiates from the toRAh Tube. By looking out we become focused on the echo of creation NOT creation itself!

Toroidal (round dial) & toRAh Tube

Think about people
who create
(brought) new
inventions. They
didn't find it Out
There! They tuned
into through
contemplation,
mediation and
prayer. They
brought it through
them!

It truly comes from
INSIDE YOU not from
Out There!

Jesus has never
knocked to come
into your heart. Jesus
is knocking on the
door of your heart to
be allowed to
Radiate out!!!

The Door they brought it through is the Black Whole Heart.
That place where when we are in that place we are one with everything even Source!
We become a Radio-active Core of Creative Force in our own and other's lives!

Radi(ost)ation

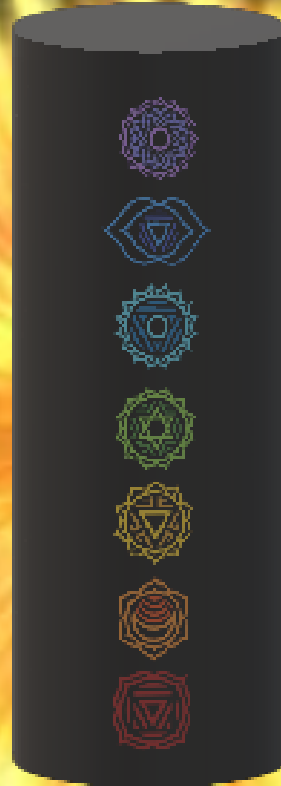

Through Our
Radiance, We
individually and
collective create
and hold our
RELATIVE REALITIES
together through
Energetic
Handshakes of
Agreement which
creates a Network
or Life-Net.

This is why some
people want to
control what you
BROADcast into
the world,
because by
controlling what
you and others
radiate one can
control the world
and its direction.

Inertia Plane = Where God sits!

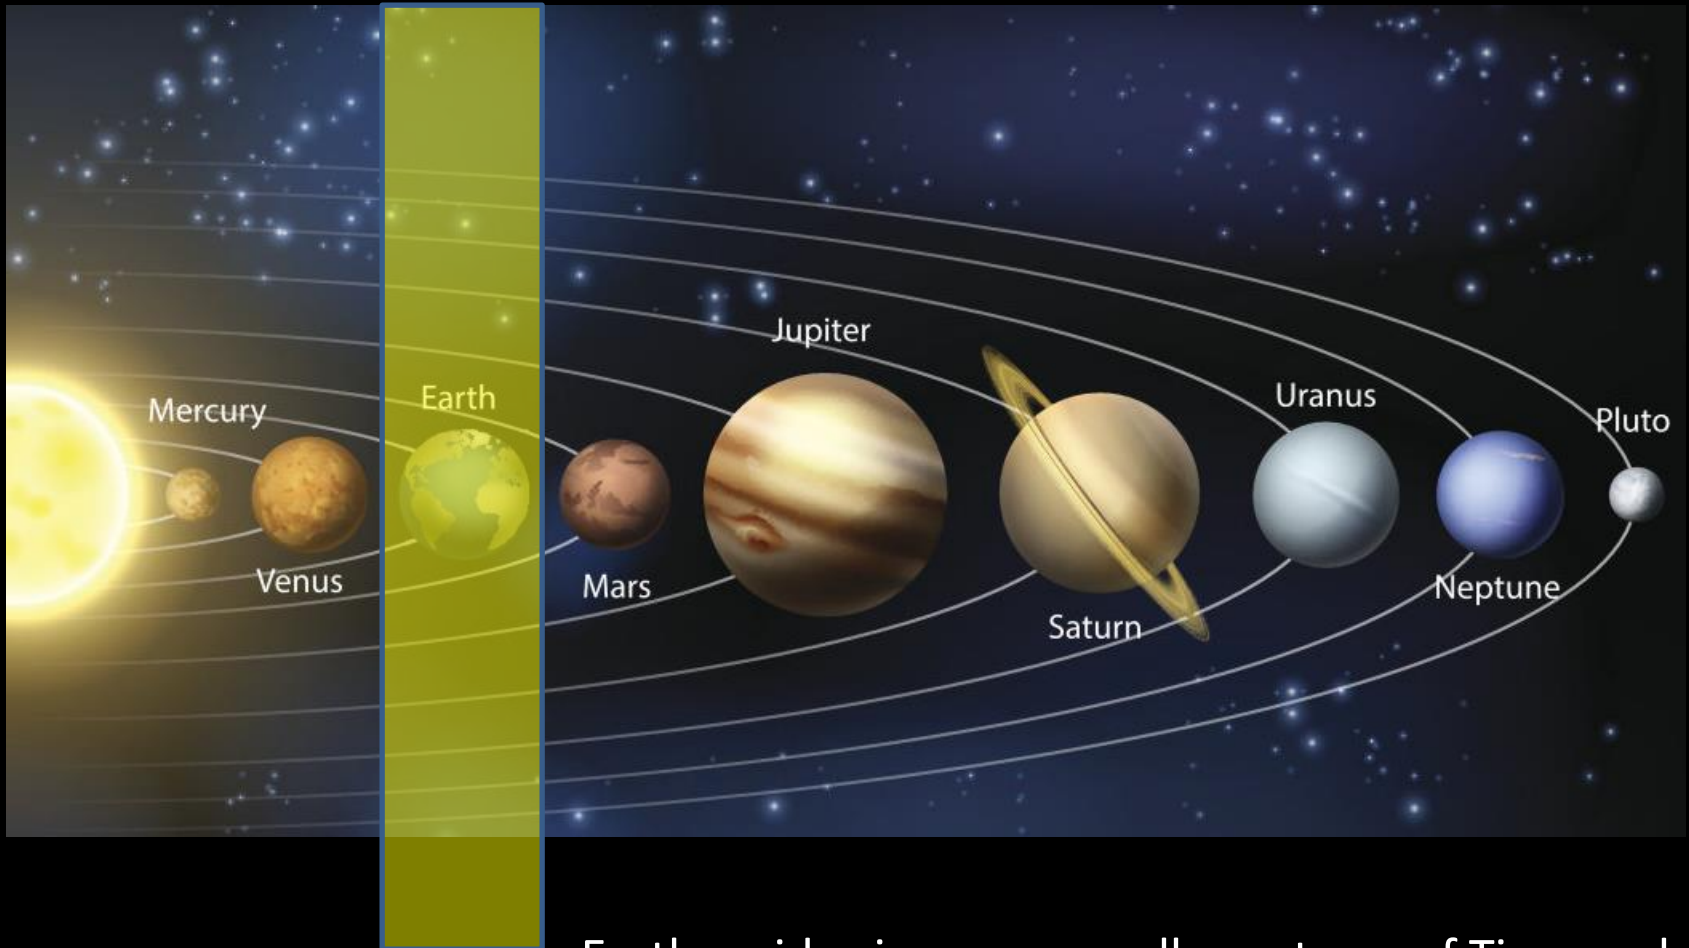

sePAIRation

Life is MOST Abundant and Sustaining at the Inertia Plane. As we diverge from the Inertia Center life becomes more difficult, less abundant and more suppressed.

In separation, your complement becomes your enemy! Night (Apep/night/yin) and Day (Ra/sun/yang) no longer seen as partners. Men and Women fight.

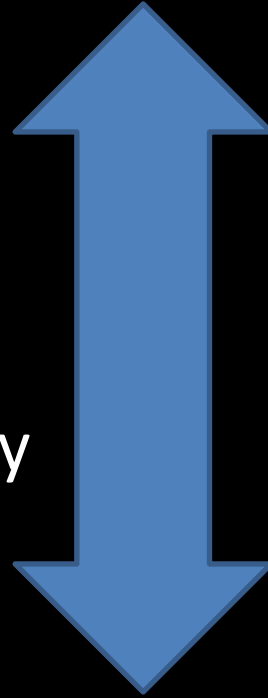

Our SOULare System

Earth resides in a very small spectrum of Time and Space. Life ceases to exist or is greatly suppressed if you move the plan-it just a little out of its chosen spot.

SOURCE aka Life aka Love

No middle person or
persons. You go directly
to sOURce!

SOURCERER

Disempowered beings need a middleman to plug them into Source.
There are many example...from Icons to the GOVERNment.

SOURCE

A middleman, woman or
organization requires you to
play by their rules...pay their
dues.

Jesus is an example of the Way. Not the “Way” as in a door but “Way” as in an example of how to resonate (frequency) with Source/God/Allah.

SOURCE

I find it hard to believe that HeAVEN, which is the residing place of Source (all that is life-giving and Life-sustaining) has a bouncer at the gate.

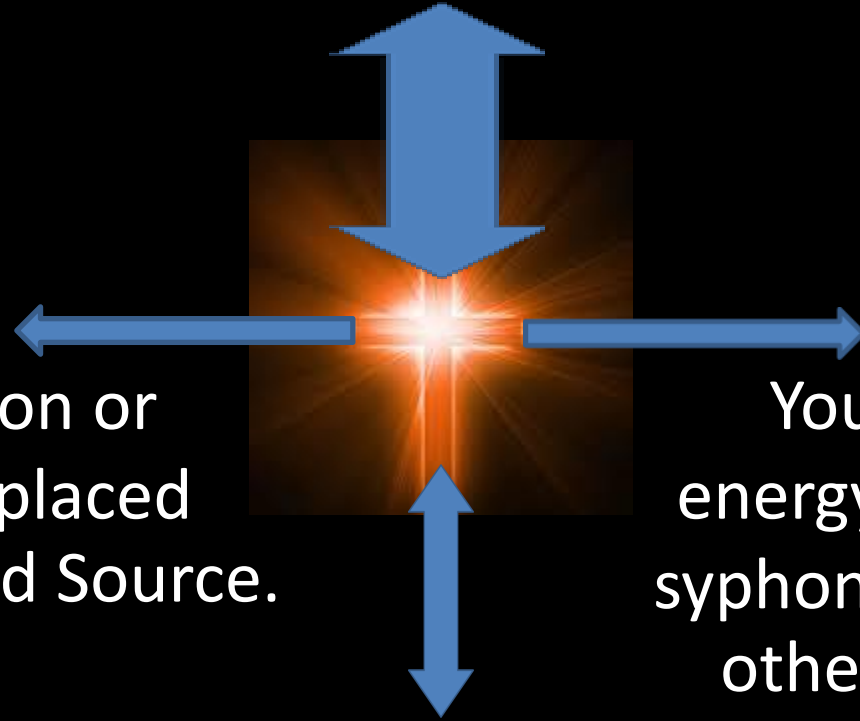

Here is the church. Here is the steeple. Open the doors and see all the trapped people.

SOURCE

SOURCE

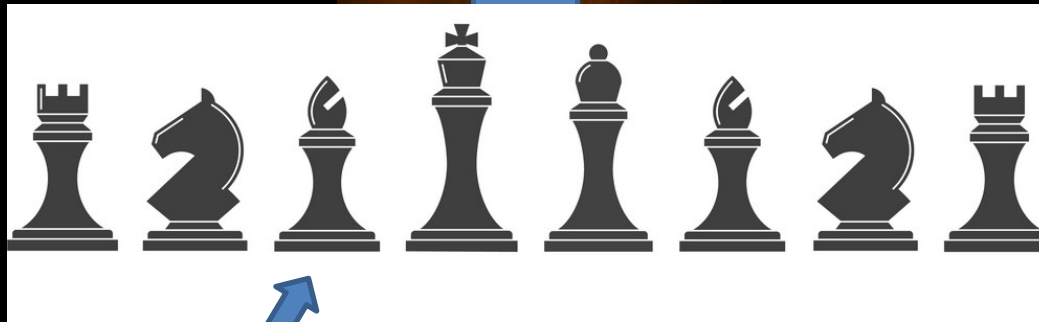

Middle person or organization placed between you and Source.

Your Spiritual energy/birthright is syphoned off to fund other's agendas.

SOURCERER to PAWN

SOURCE

Notice how the Bishop flank the King and Queen. The Knights (military) are second.

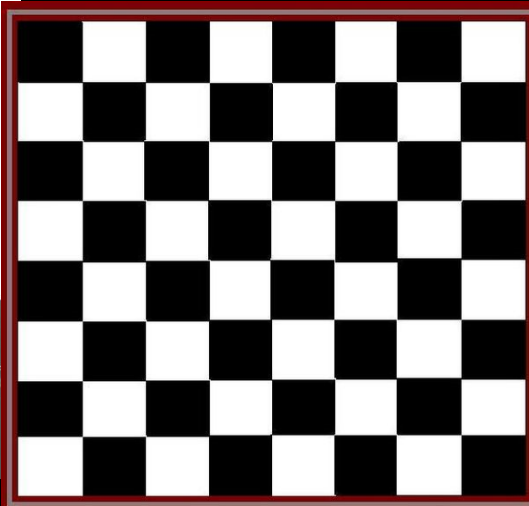

It easier to control people when you tell them they are separate from their creator and program them as worthless sinners who need to appease a jealous God who created them.

Separate from Source

When your heart and mind are riddled with programs, they are easy to control. If the military showed up on your doorstep and said, “Kill your neighbor.” You would be like. “Hell no!” However, all it takes is a little programing and you would.

When that doesn't work the Knights (military) are engaged. However, it's easier to control someone without force. You can even be indoctrinated into killing your brother or sister.

There are a select group of people on this planet trying to control the rest of us. They have been taking away the most precious gift we were given by Source...our will. Our ability and freedom to choose for ourselves.

the 10 is marked through... 9/11

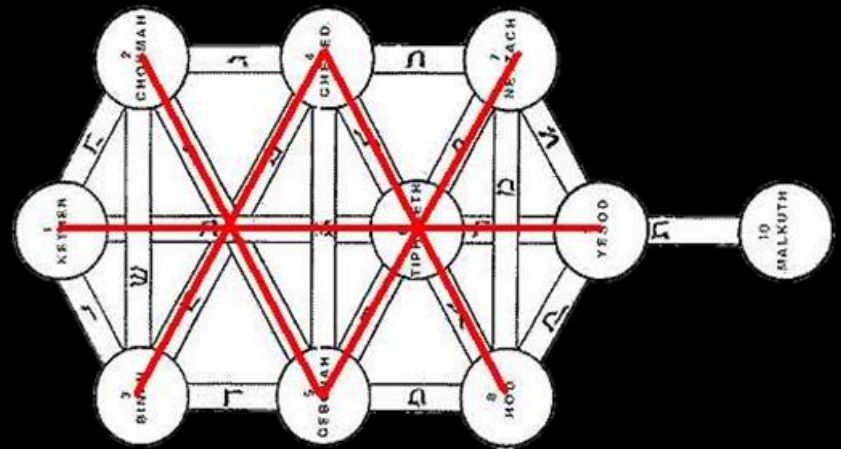

Saturn – Control

10 reduces to 1, which represents self-responsibility. Taking ownership of our thoughts, feelings, words and actions. There are select groups of people on this planet trying to control the rest of us. They do not want us to become self-empowered and self-governed. They have been taking away the most precious gift we were given by Source...our will. Our ability and freedom to choose for ourselves. They control us by keeping us in 9/11 (emergency states) which usually limits Spiritual emergence.

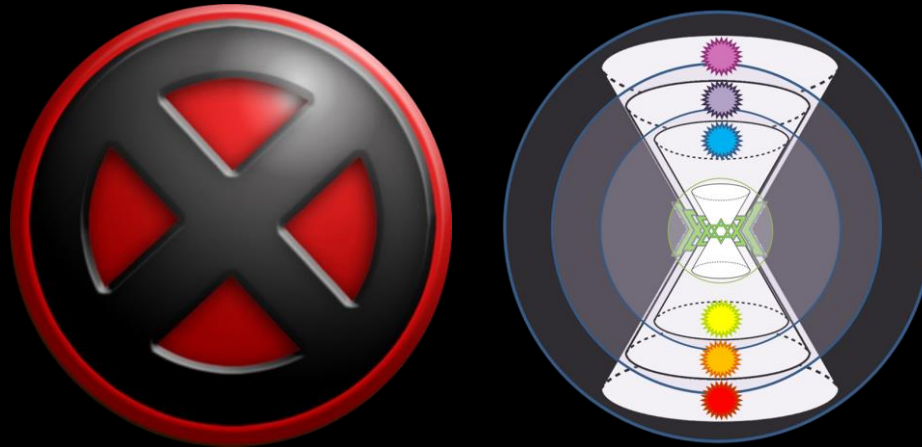

9/11

IX XI

What can we do? How do we break free?

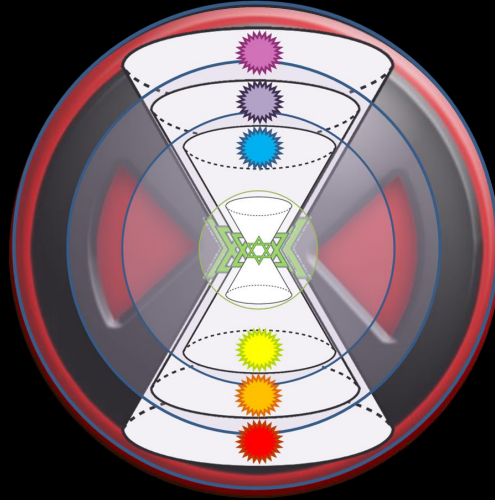

It must happen from the inside to out.

If you push change from the outside you will hit resistance.

We fell from grace because of our separatist points of view, and we must individually reclaim our Divine Birthright. When we do it for ourselves, we do it for humanity!

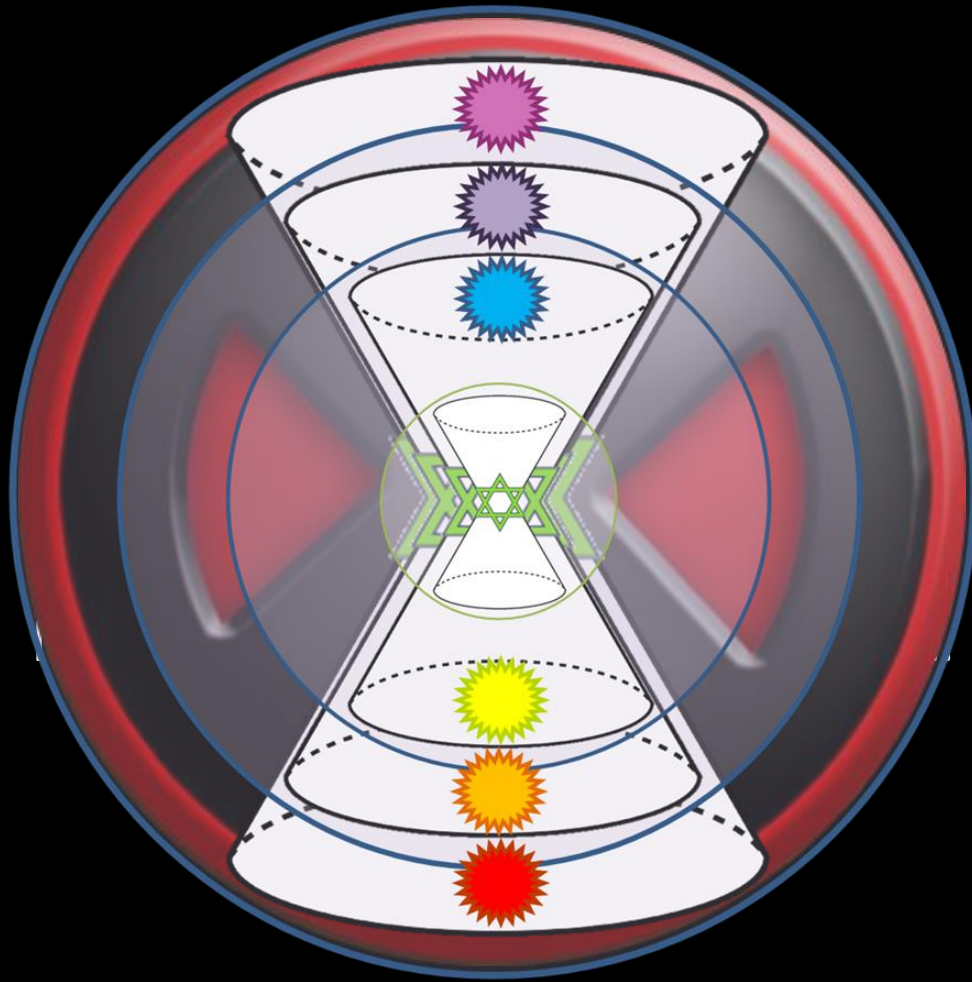

The Way - Christhood

Christ showed us a way. He did it himself and he helped others do the same.

1. He completely aligned with Source aka Life-Giving and Supporting.
2. He opened the seven seals. Life aka Love aka God aka Source poured through every aspect of his being...Love was in his Thoughts, Visuals, Words, Passion, Intent, Feelings and Actions!
3. He surrogate healed the people and planet. Energy-works...

Infinity & Beyond

Ein Sof = Limitlessness;
Infinite, unending, NO
SEPARATION, אין סוף

Infinity can be found
in one place. The
center of your
being...your HEART!

Infinity & Beyond

My friend Kineret shared the following with me regarding Ein Sof.

My thoughts:

∞ = no ending

○ = graphic sign is a circle with end, closed and round form

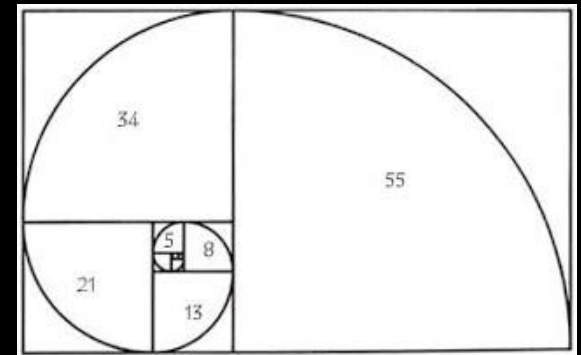

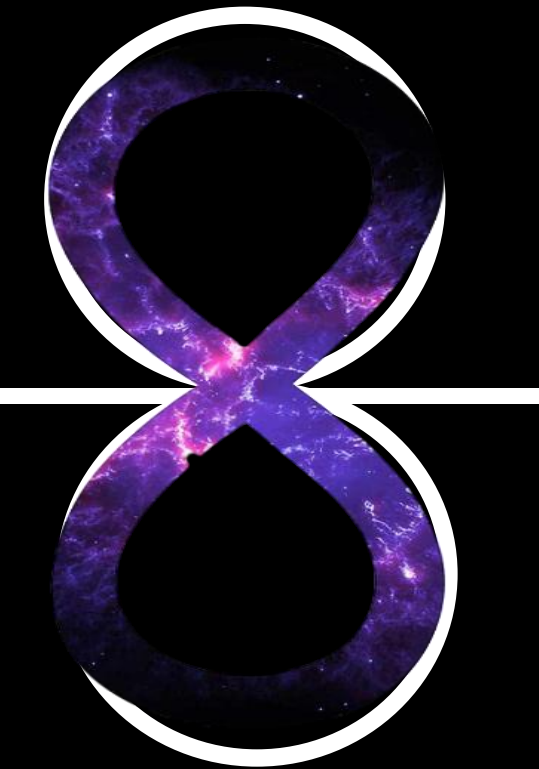

∪ = usually used to adding or + or "and..."

פ/ף = the letter f+p its name is PHE which in Hebrew it means mouth

פ in the middle of a word

ף in the end of a word

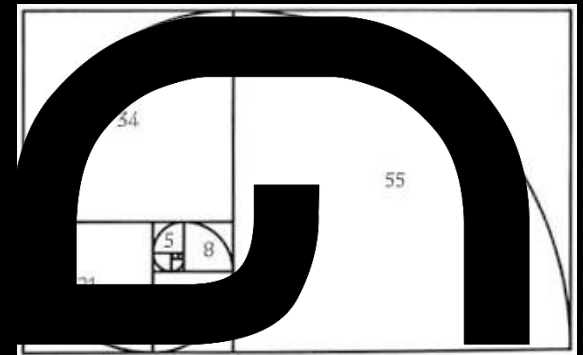

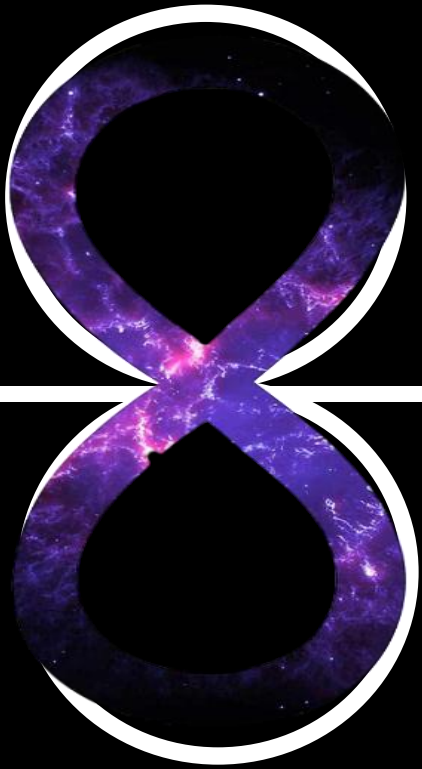

the graphic sign for פ/ף is an open shape that goes to infinity like this one you will recognize:

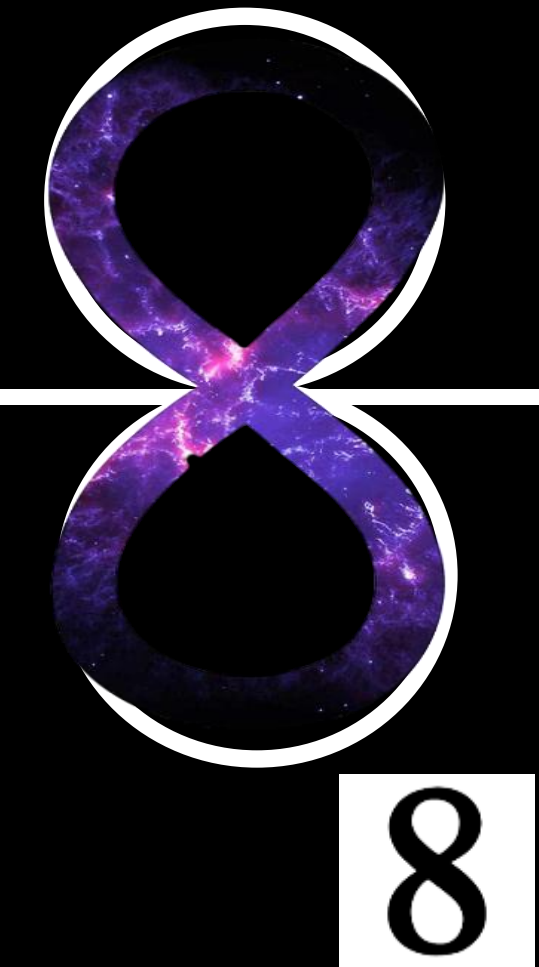

Infinity & Beyond

אין סוף start with ending shape + infinity shape at the end, and the "and"= ito make them one.

You could say that it represents the mouth of God, which out from came the first word that create! Big Bang aka God spoke things into being!

Infinity & Beyond

7 is inside nature and in this world. 8 is beyond nature and outside the world as we know it (8 note in music, the day after Saturday, the day Jewish people circumcise the new born baby. 7 days are in the physical and in nature world and 7 music notes we know of etc.), that's why it also symbolizes infinity. It's the after life or as said in Hebrew Ha-olam Haba, meaning the next world or the world that comes to you (like you come forward to greet your guest - you are coming towards him/her).

Maps within Maps – Wheels within Wheels

Our energy body is identical to a black hole

$$\text{Emit} = \text{time}E$$

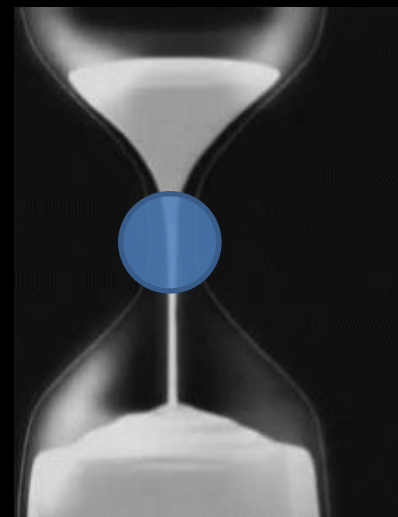

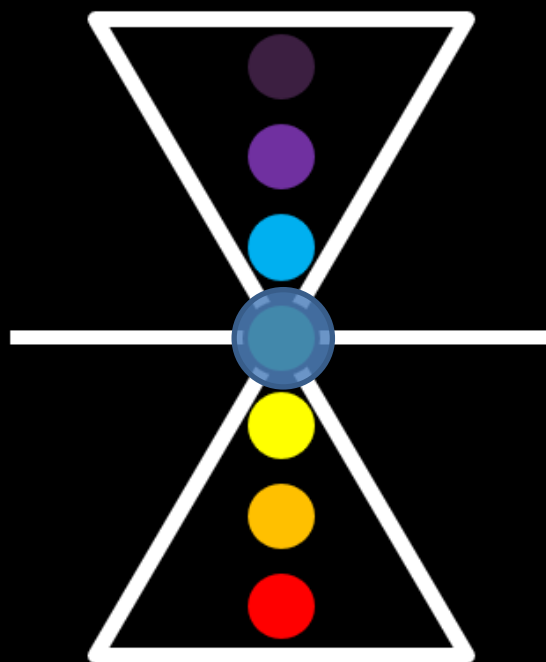

The energy/light that is emitted by the Blackhole is what we experience as Time.

When we get caught up in external happenings we are pulled out of our Center aka SingYOUlarity!

SingYOUlarity is Where the Power Resides

In the Heart Center
aka the Holy Grail
(Sacred Vessel), you
will find the
SingYOUlarity. It is
where Male and
Female, Future and
Past meet. It is where
everything meets!

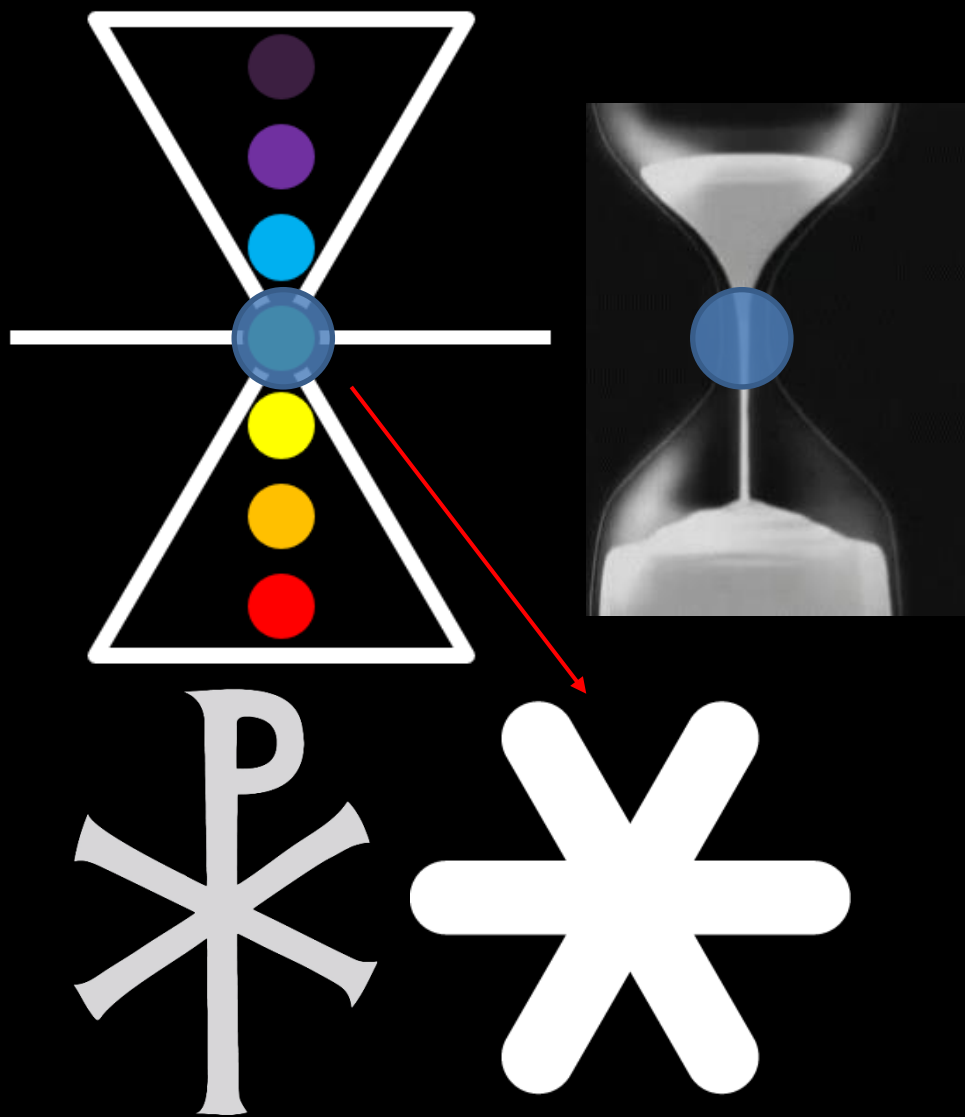

SingYOUlarity is Where the Power Resides

This is the space Jesus accessed and became Christ or a Spiritually CHRISTened being.

Where the paths meet in the middle you get an asterisk symbol, which means Small Star in Greek. A star is a sun or a small **SON** of a sun!

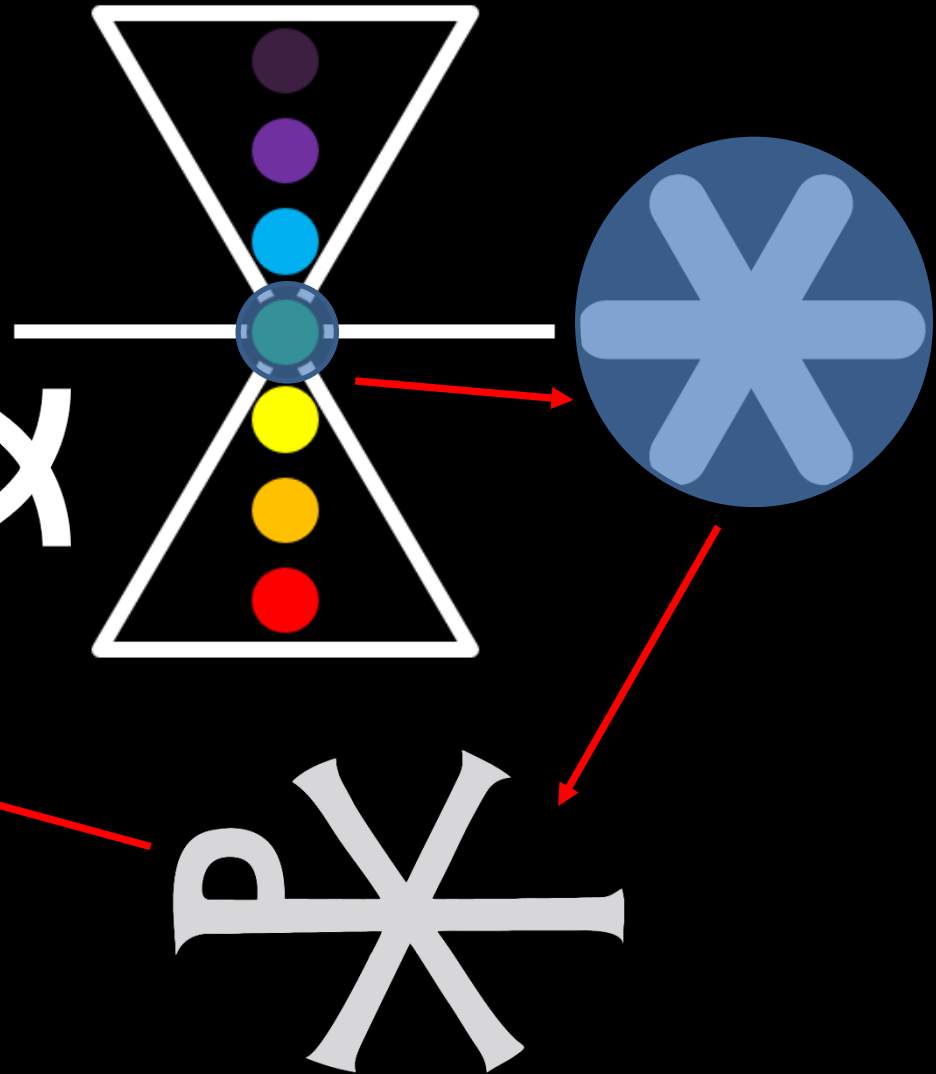

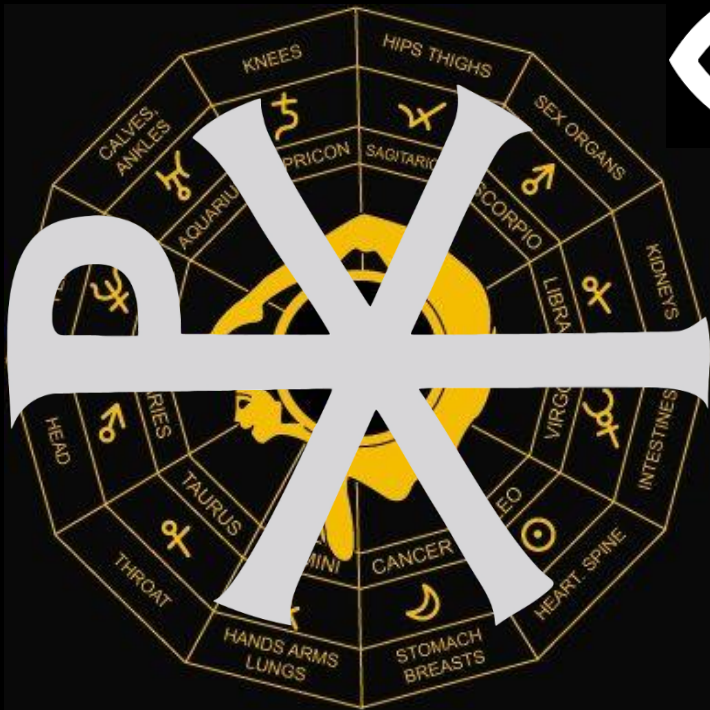

Chi Rho is an ancient symbol for Christ.

SingYOUlarity is Where the Power Resides

You might say, "Jon the Chi Rho is not turned the right way." To which I would answer that if you rotate the symbol it hints at astrology.

The P covers the house of Pisces aka the Fish aka Jesus!

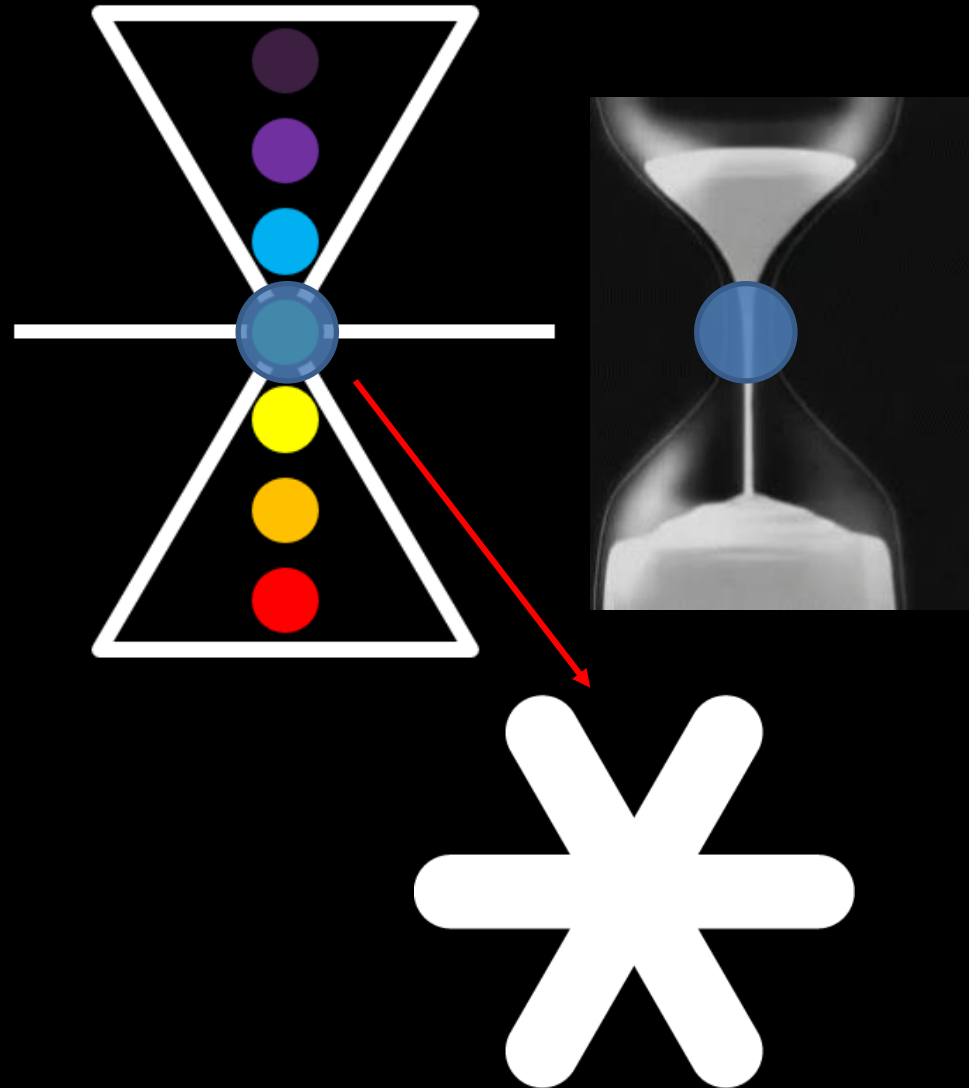

SingYOUlarity is Where the Power Resides

The **Great I am** and your True-Self are located in that space in between everything and where everything meets! The space between breaths...between future and past.

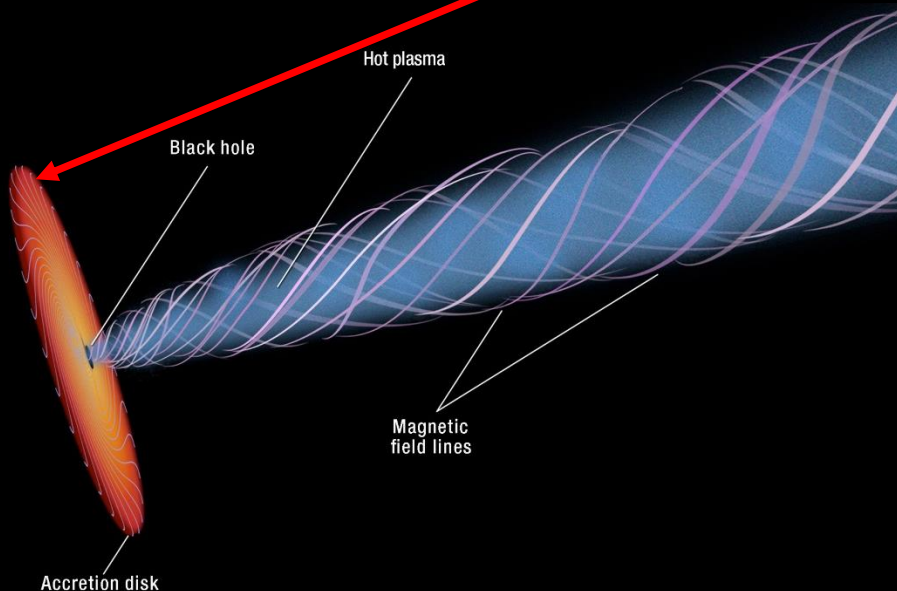

T I M E

I M = I'm = I AM!

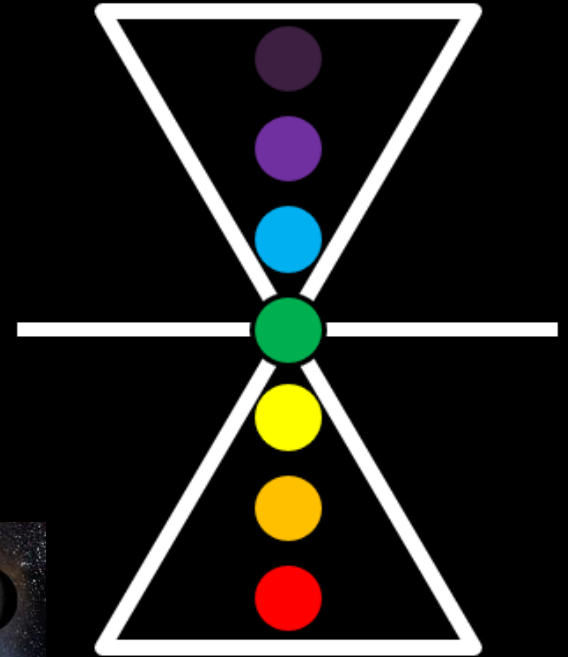

Round and Round We Go

One of the most important aspect of this Joining Place is the Inertia Plane aka Accretion Disk. It is the flat disk part. **However, it is nothing flat about it.**

Round and Round We Go

Zoom into the galaxy's accretion disk and it's full of substance!

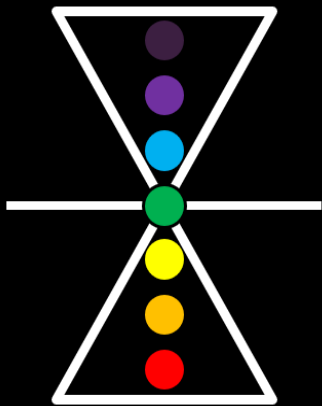

The Point

Now here is the main point I working to! It is a bit tricky to explain.

The matter (round particles) from quarks to planets come from the womb aka blackhole in the center of the galaxy.

What shows up is based on the Light of Consciousness aka Laser Focus of Big Consciousness.

We are made in that image and as such we do the same thing!! Based on our state of being we shine a light onto our own disks. What we highlight shows up in our physical world as physical manifestation!

Bodywork Proves We Are Fractals

When I got into Bodywork is when I began to wake up and realize that there is more to the body than meets the eyes or hands. Yet...the eyes and hands hold so much information themselves.

Reflexology and Acupuncture prove that our bodies are fractals. All the body and its state of heal or dis-ease are Fractally reflected in the Face, Tongue, Eyes, Ears, Hands and Feet to name a few. All these parts of the body that reflect the body are like CDs that you can pick up very specific IN-FORM-ation from reading them.

What if it even goes further though?? What if what you read in these fractalic body parts are just holographic echos of something deeper... more core?

Bodywork Proves We Are Fractals

ech·o

1. a sound or series of sounds caused by the **reflection of sound waves from a surface back to the listener.**

a reflected radio or radar beam.

2. a **close parallel or repetition of an idea, feeling, style, or event.**

"his love for her found an echo in her own feelings"

synonyms: **duplicate, copy, replica, imitation, mirror image, double, match, parallel**

3. a person who slavishly repeats the words or opinions of another

Sooooo the body is not ever the real issue. It is at the very least the 2nd or 3rd echo of something more.

It doesn't stop with the body, Because Feng Shui is the Fractal of the body out into its Environment.

Cymatics – Ferrofluid = Physical Reality

Cymatics shows that sound projected onto a flat piece of metal will not only create distinctive shapes but also 3d structures.

Frequency will change the shape of water while it is flowing. Our bodies are 70 to 90% water.

Cymatics – Ferrofluid = Physical Reality

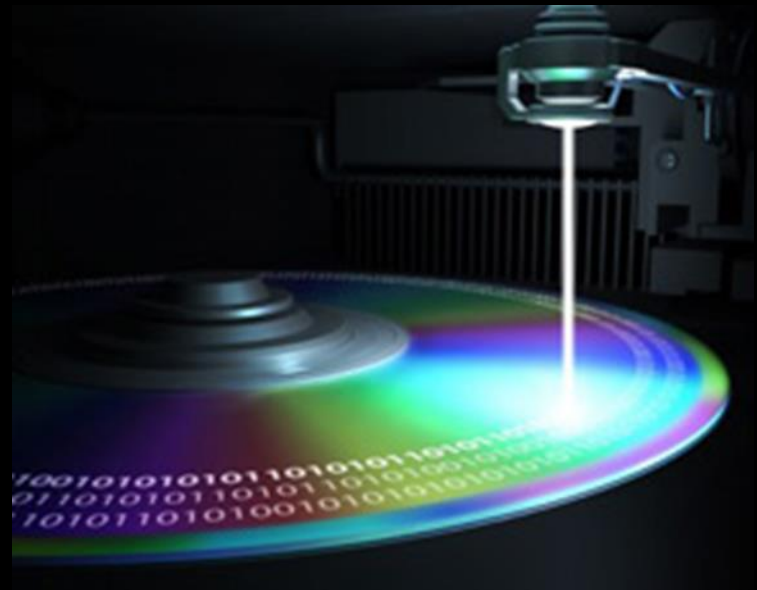

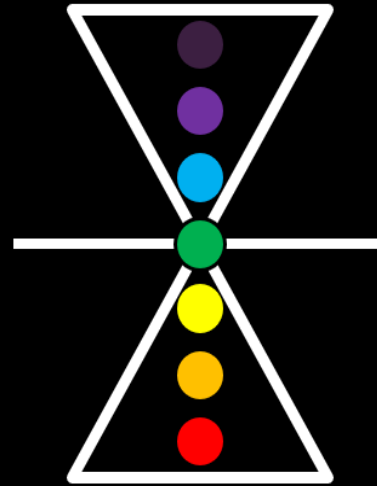

Put the Needle On the Record

So what if you and I are doing the same thing by projecting frequencies via our thoughts and feelings onto our individual and collective Inertia / Accretion Disks???

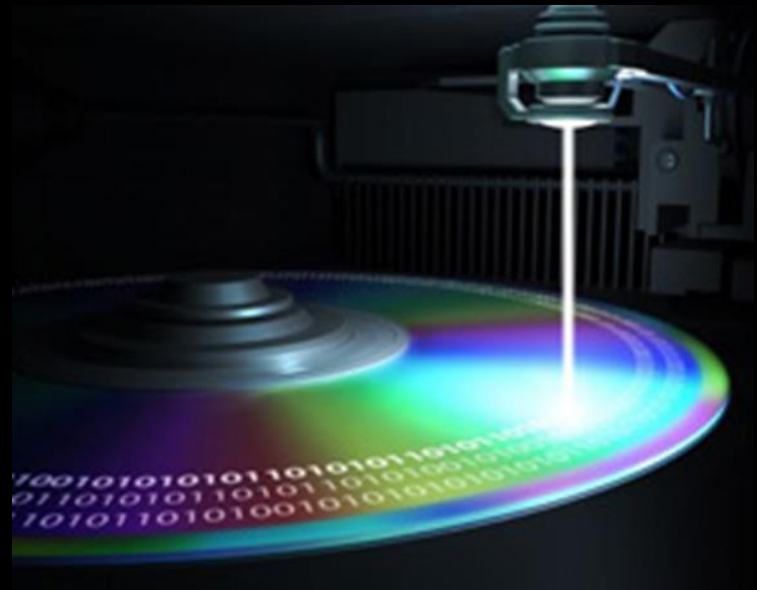

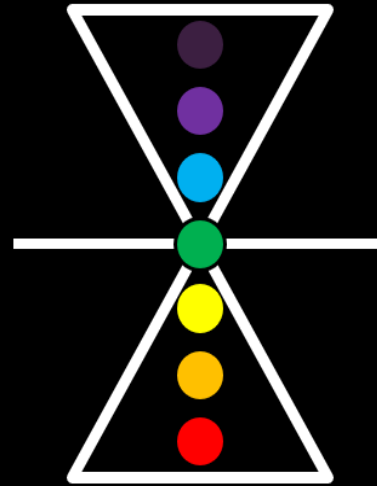

Much like a laser plays a DVD and an image shows up. We pull certain things into existence by the accidental or intentional focusing of our consciousness. Each body part's manifested states (well or diseased) is a reflection of what it being highlighted on the DVD.

This brings Flat Earth Theory in alignment with Spherical Earth. They are both AND so are we!!!

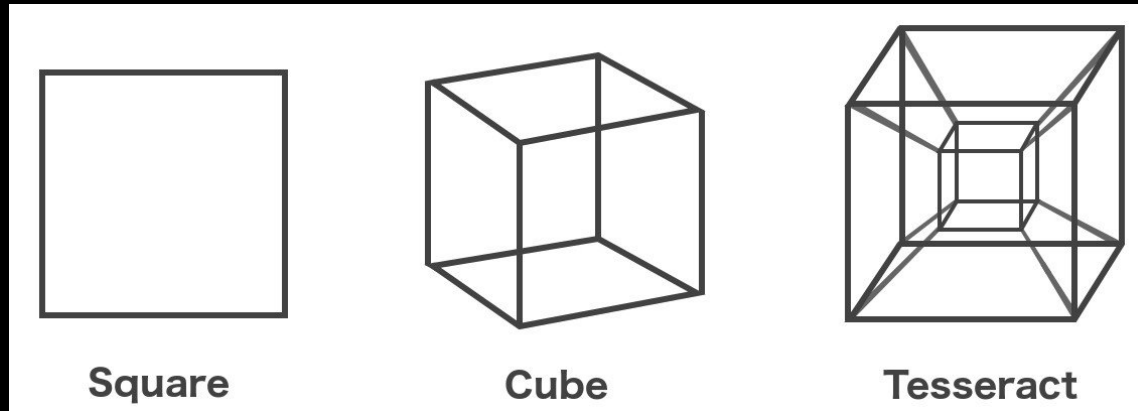

Put the Needle On the Record

If this is true than change can be instantaneous!! Change the frequency and the shape changes instantly!!!

tEsSErACT = SECRET - TESSERACT- CREATES

In geometry, the tesseract is the four-dimensional analogue of the cube; the tesseract is to the cube as the cube is to the square. Just as the surface of the cube consists of six square faces, the hypersurface of the tesseract consists of eight cubical cells.

The tesseract is also called an eight-cell, C8, (regular) octachoron, octahedroid,[1] cubic prism, and tetracube.[2] It is the four-dimensional hypercube, or 4-cube as a part of the dimensional family of hypercubes or "measure polytopes".[3]

According to the Oxford English Dictionary, the word tesseract was coined and first used in 1888 by Charles Howard Hinton in his book *A New Era of Thought*, from the Greek τέσσερες ακτίνες (téssereis aktines, "four rays"), referring to the four lines from each vertex to other vertices.[4] In this publication, as well as some of Hinton's later work, the word was occasionally spelled "tessaract".
