## The Second Reiki Symbol Should be the 1<sup>st</sup> Symbol!

### SEI-HE-KI - Color **PURPLE**.

It heals the emotional. It can be used to purify the body or an object.

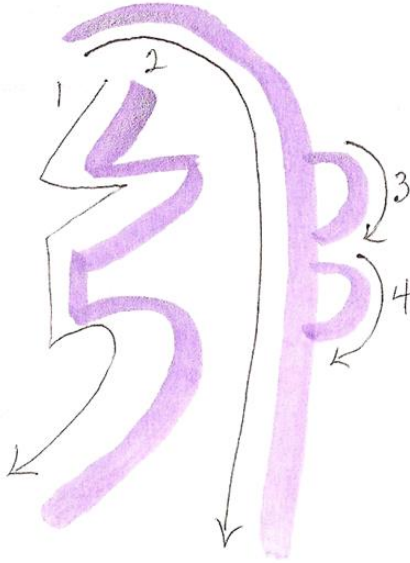

It can also clear negative energy out of a room or house.

It can release attachments (addictions, entities, etc). Think of it as an eraser.

Think about using different FONTS and/or Elements to fine tune the energy!!!

# Sei He Ki

Cleaning the Temple and accessing the Arc of the COVENANT

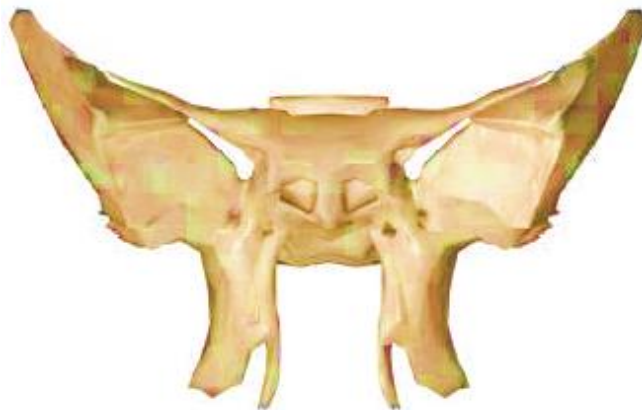

Sei = Life, Birth, Voice, Justice, Focus, Clear

He = Me, Bow, The

Ki = Tree, Life, Spirit

Sphenoid Bone = Arc of Covenant

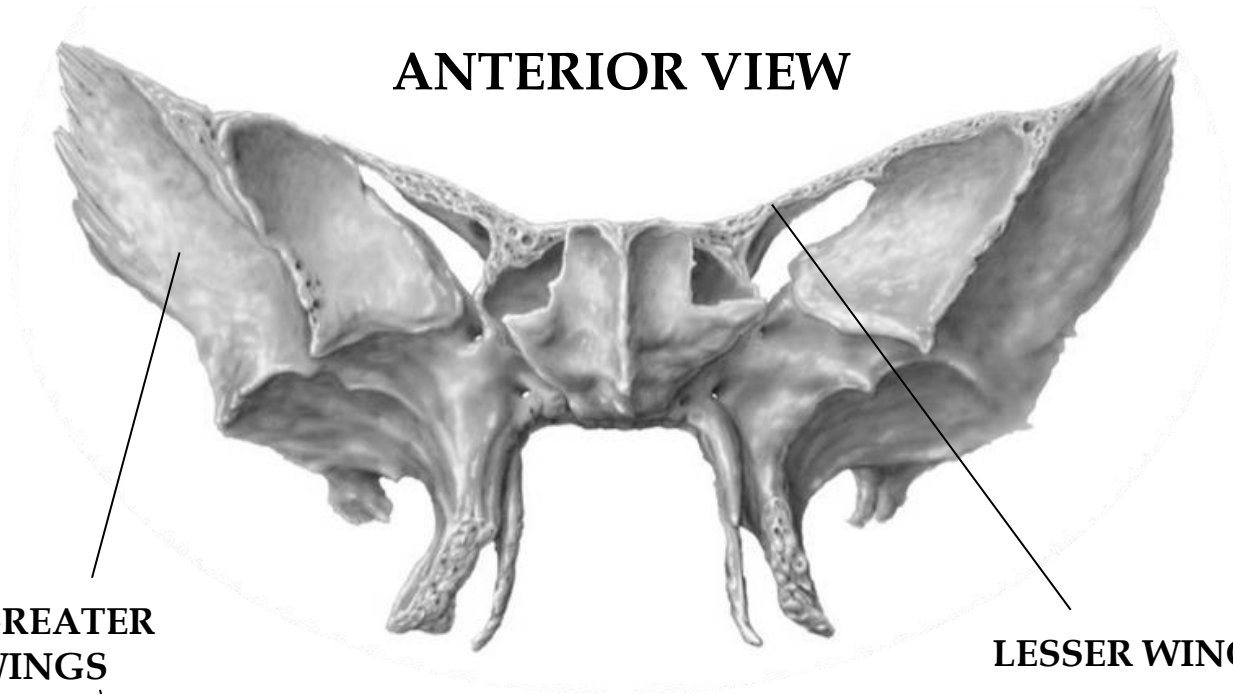

# Sphenoid Bone

The Sphenoid Bone is the Key Stone of the skull. All the major bones of the skull articulate with the Sphenoid. Its shape resembles a bat, owl and butterfly.

Let's explore this mysterious bone and maybe glimpse the root of the Butterfly Effect.

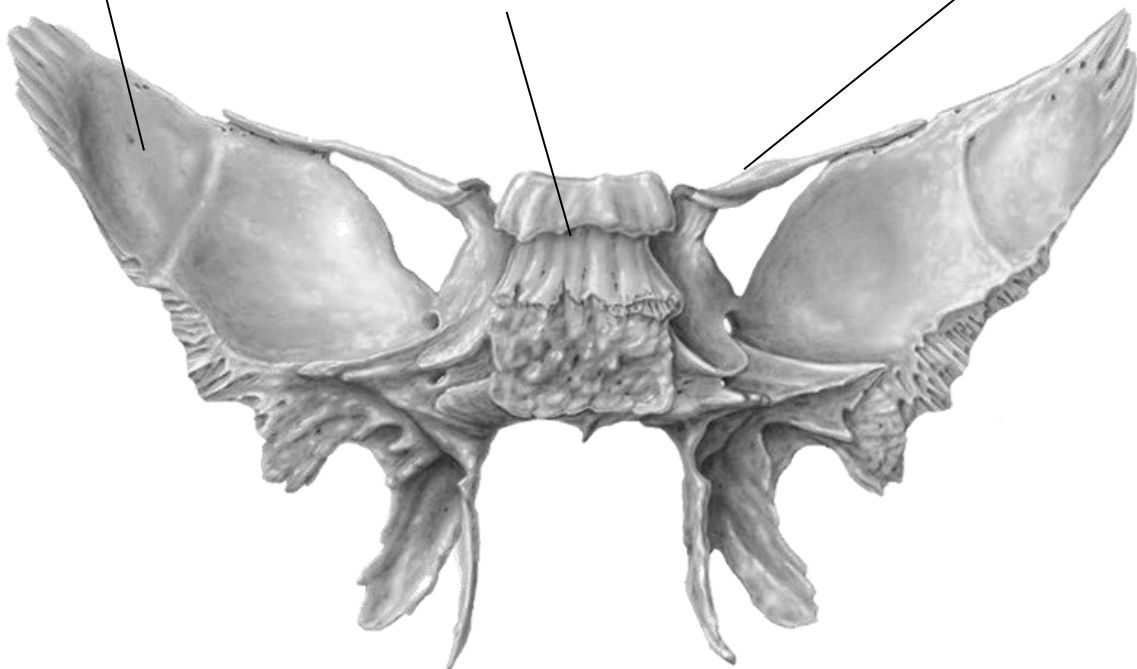

**ANTERIOR VIEW**

**GREATER  
WINGS**

**LESSER WINGS**

**SELLA TURCIA**

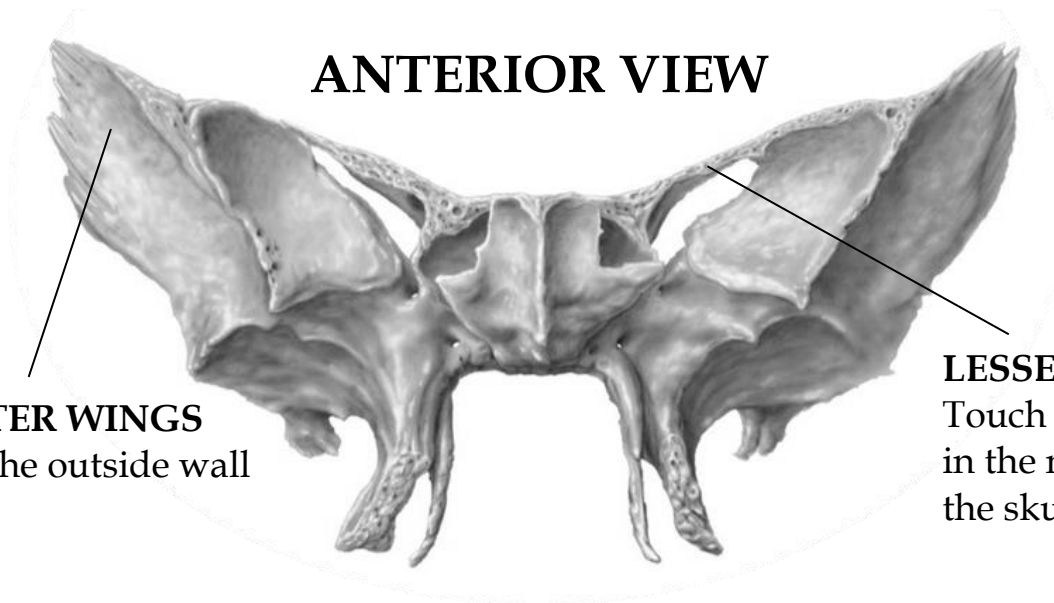

**POSTERIOR VIEW**

And he placed the cherubim inside the innermost room of the temple. Since their wings were spread out, the wing of the first cherub touched one wall, while the wing of the second cherub touched the other wall, and in the middle of the room their wingtips touched.

- 1 Kings 6:27

## ANTERIOR VIEW

### **GREATER WINGS**

Touch the outside wall of skull.

### **LESSER WINGS**

Touch each other in the middle of the skull.

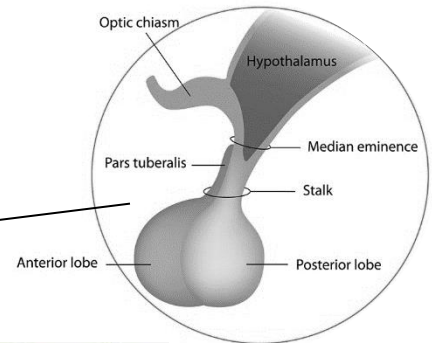

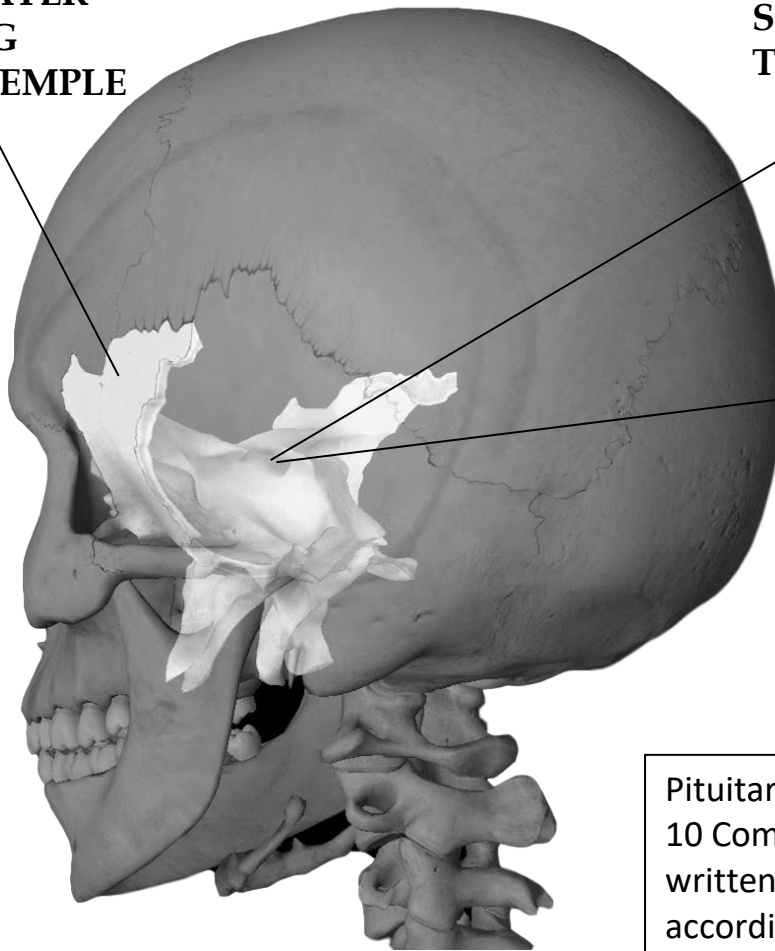

The Sphenoid bone is the Arc of the Covenant discussed in the Bible.

**GREATER  
WING  
aka TEMPLE**

**SELLA  
TURCICA**

**PITUITARY**

Pituitary Gland = 2 Tablets that the 10 Commandments are written/preSCRIBED within according to Thoughts and Feelings.

The tips of Greater Wings of the Sphenoid are your Temples, and they touch the outer wall of your skull, which means your sphenoid bone is inside the Temple.

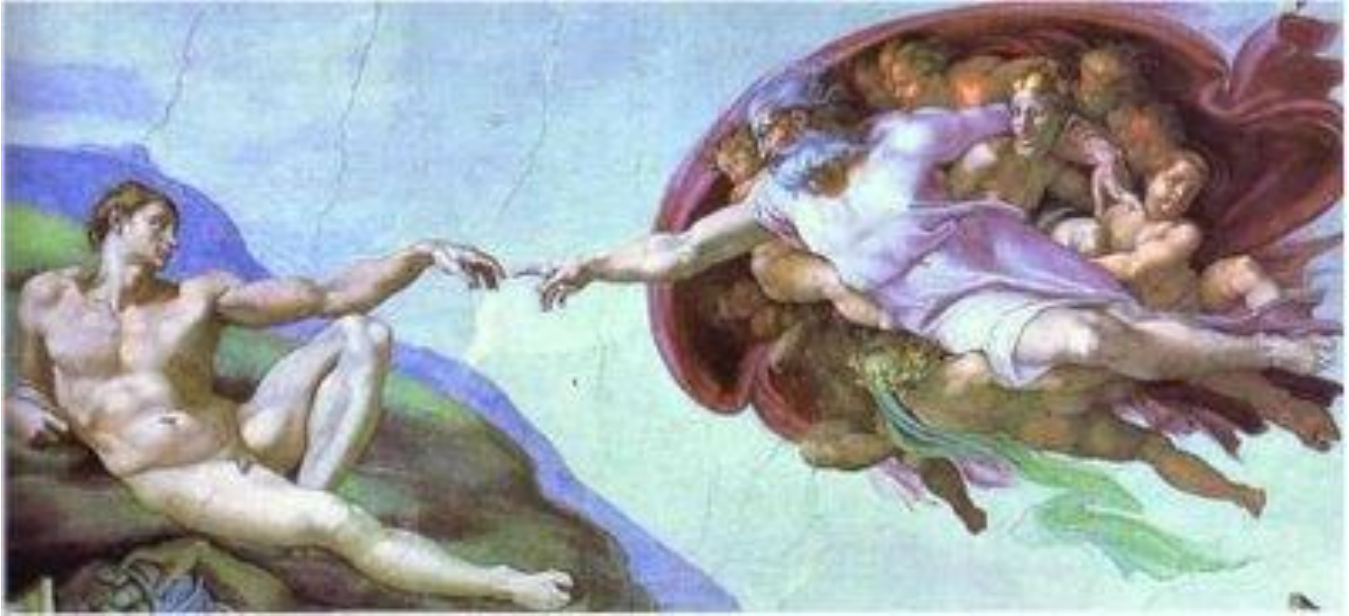

The Arc is rumored to house the 10 Commandments. The Pituitary Gland sits in an indentation on the Sphenoid called the "Sella Turcica". The pituitary is two lobed and secretes hormones, which are the commandments of the body's Endocrine System. This further validates that the sphenoid is the true Arc of the Covenant.

What does this mean? Your body is a Sacred Temple created from and by Divine Design!

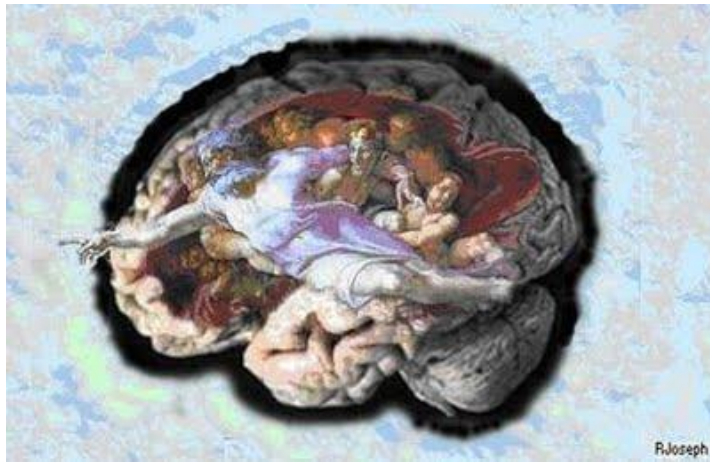

The preparation for and exercises experienced in a Body Electronics class help awaken and bring your pituitary and Arc of the Covenant back online.

# It's ALL in your Head!!!

Michelangelo's **Creation of Man**

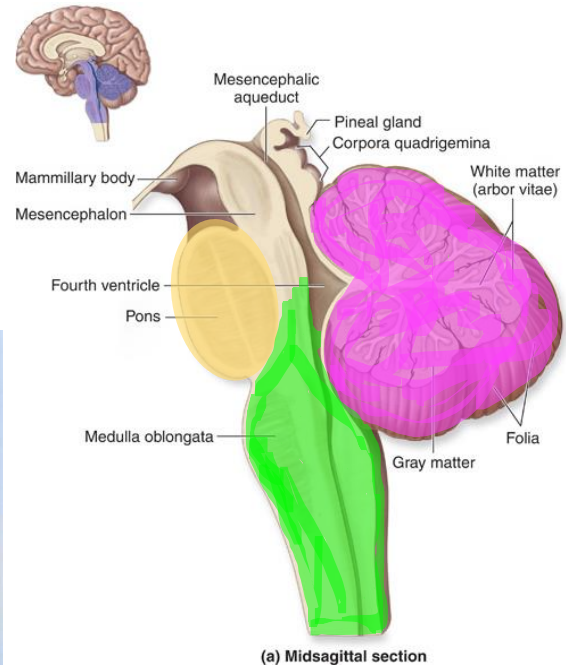

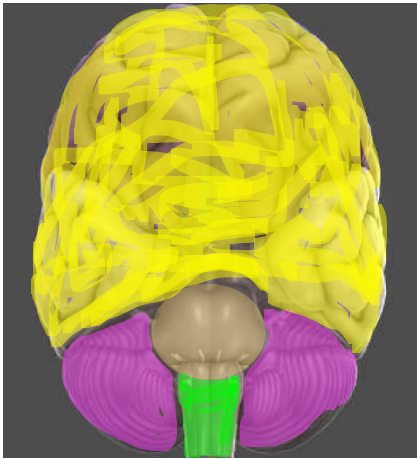

Do you notice anything out of the ordinary???

What about now?

# Reptilian Brain

This is literally who Ganesha is. Ganesha guards the gates of the temple and removes blocks (which are always rooted in consciousness). If you do not possess the proper state of consciousness, you cannot enter the temple! The Hindu gods were really ways of explaining the workings of the mind and consciousness.

Ganesha (the remover of obstacles) relates to the following parts of the brain:

**Pons** - Face of Ganesha

**Brain stem & midbrain** - Trunk

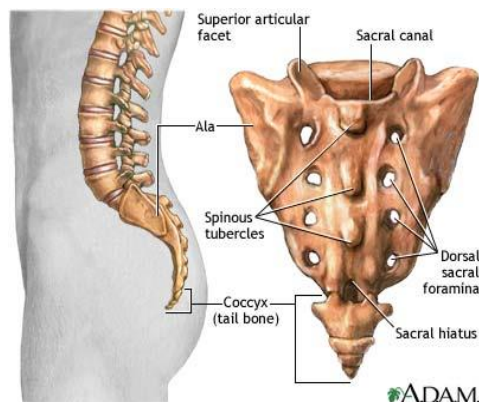

**Cerebellum** - Ears

Trigeminal nerve - Ganesha's Tusks

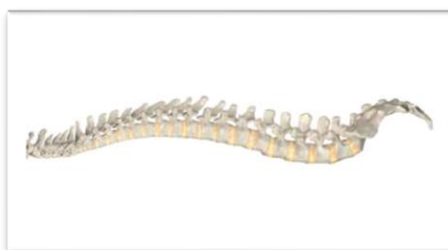

**Crown** - Rest of bRAIn

Ganesha is said to guard the chambers of the higher gods. Translation these parts of the brain restrict consciousness (kundalini) from rising fully into the higher aspects of your mind until obstacles in your ego are removed. If you have not done enough work on yourself your kundalini is stopped from rising to full potential. Kind of like this, if you are two years old no one is going to give you a loaded gun. At least I hope not

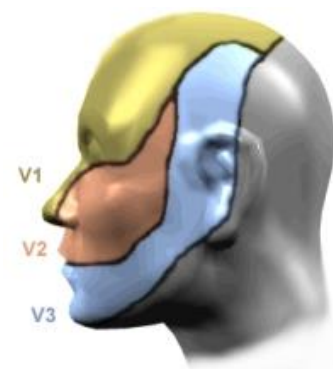

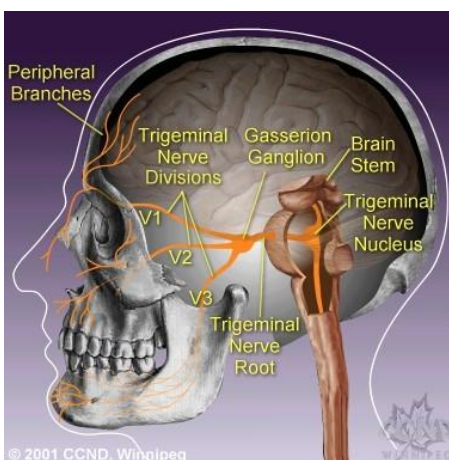

# Reptilian Brain (lower brain) = Devil, Draconians

It is interesting to me that the devil (**L.I.V.E.D. spelled backwards by the way**) has a tail like most reptiles and it has an arrow on the end. Hmmmm maybe like the sacrum at the end of the spine.

That pitchfork is interesting too...right?

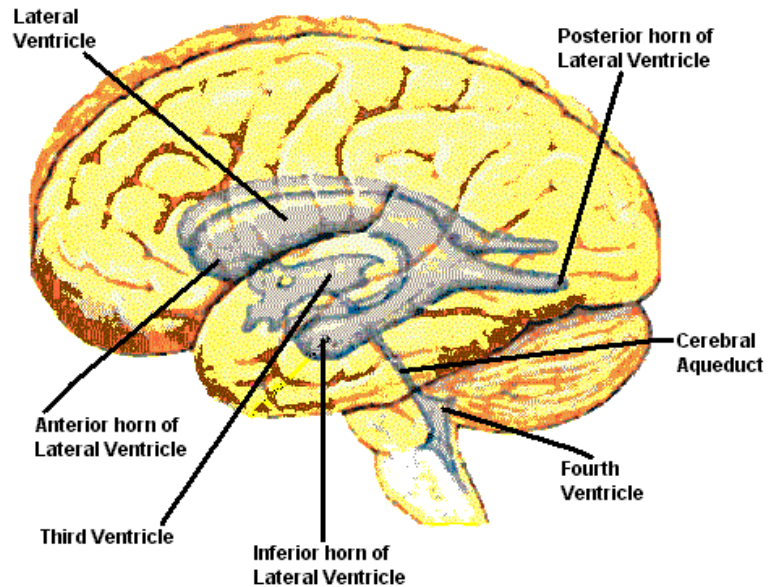

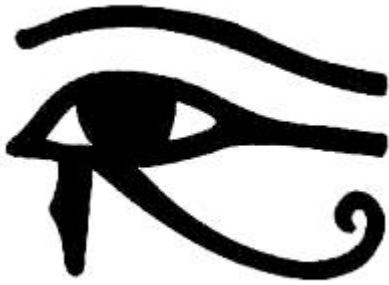

Pitchfork = Trigeminal Nerve (tusk of Ganesha). The tie into the face. What we see, hear, taste and smell. Notice how the Peripheral Branches go up in from of the 3<sup>rd</sup> eye. No doubt blocking or closing it off when in a devilish state of mind. Posiedon, Shiva and Neptune had tridons. They all had access to the deep subconscious. Submarine = UNDER water

Basically, it's the source of our desires and how we satisfy them! When the reptilian brain is in charge the devil is in charge. Instinct/Animal/Beast over higher functions of one's being.

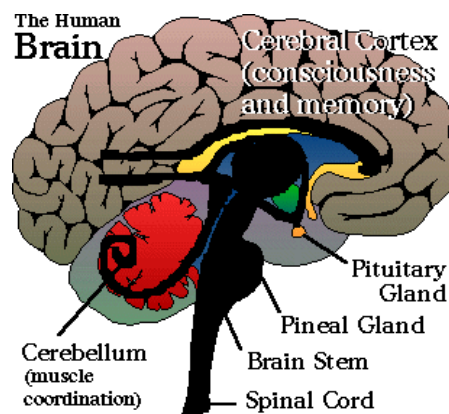

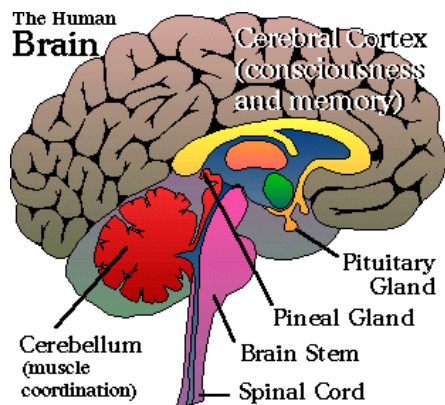

# Eye of Horus

The Eye of Horus repeats a couple of times in the head.

**Ventricles.** The ventricles are four connected cavities within the brain that are filled with cerebrospinal fluid.

It also ties the Reptilian, Limbic and Mammalian Brains together.

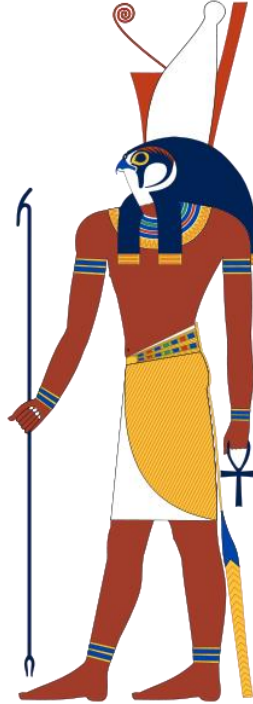

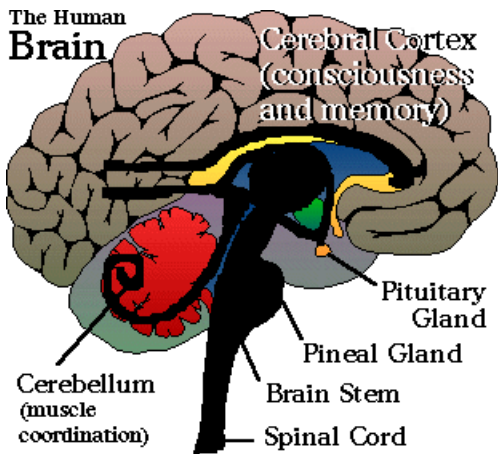

The Eye of Horus is code for the Thalamus in the brain and some of its connections.

- The Thalamus: Pupil of Eye
- Corpus Callosum: Eyebrow
- Brain Stem (Medulla Oblongata, Pons, Spinal Cord/music): The straight line going down.
- Cerebellum: Spiral
- Pituitary: Tear duct
- Pineal: Back of eye

Limbic Brain (midbrain) = Bird bRAain, Horus

I realized that the Reiki symbol Sei-Hei-Ki, which is used for emotional clearing, is mapped out over the limbic (emotional) brain via the Gall Bladder meridian. The GB meridian time is 11pm to 1am and is when it processes the day's events. It is important to be in bed by 11pm.

In evolution, what did the dinosaurs become?

Look up paleontologist Xu Xing for more information.

## Stages of Evolution

Fish – In Water (mother)

Stage: In the womb

Amphibian – Crawls out of water (mother) but stays close

Stage: Childhood

Reptilian – Strike out on one's own, away from water.

Stage: Going out to seek one's place or power. Dinosaur = too big for breeches

Bird – Rising above earthly limits. High perception

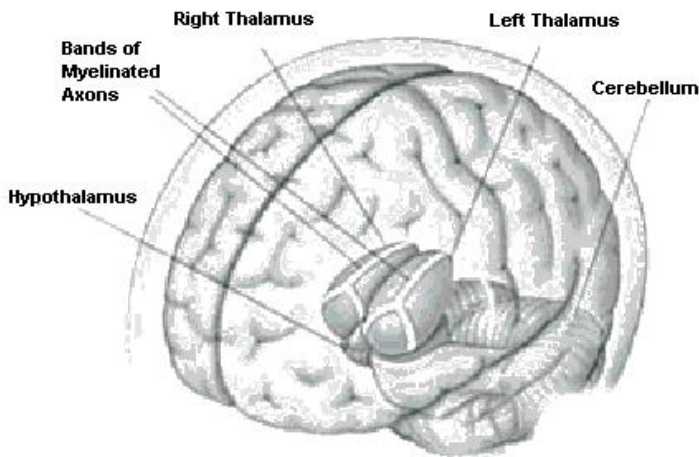

Stage: An awakening to the connectedness of all things and what is important.

Mammalian – Nurturing and caring for others

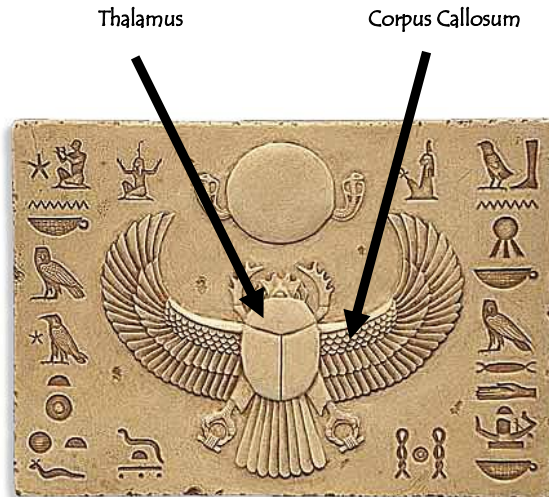

Stage: Seeing the larger picture brings about compassion and caring for everything.

# BEETLEJUICE...Beetlejuice!!!

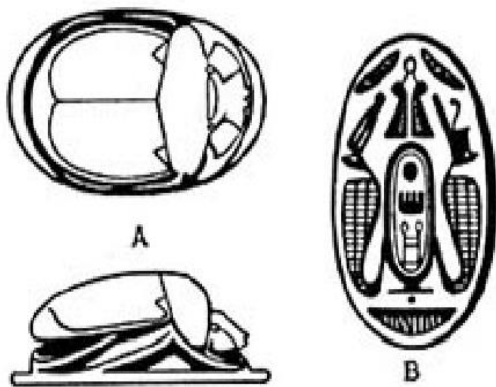

The Thalamus at the center of the brain.

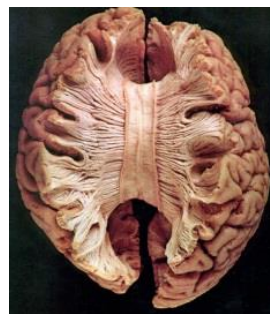

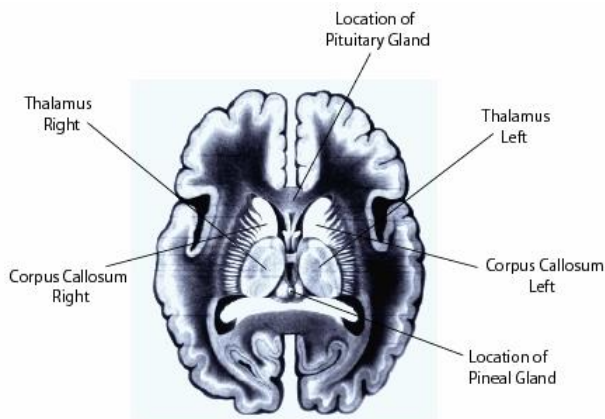

Notice the line segments of the beetle? They are identical to the thalamus. Also notice the orb above the beetle's head with two snakes coming out of the side. This is the view looking down the caduceus (medical staff).

The ray-like antenna on the beetle's head and its practice of dung-rolling caused the beetle to also carry solar symbolism. The scarab-beetle god Khepera was believed to push the setting sun along the sky in the same manner as the beetle with his ball of dung. In many artifacts, the scarab is depicted pushing the sun along its course in the sky.

Look at B. See the 2 snakes on either side of the oval shape. This is representing the Pingala (male) and Ida (female) Kundalini channels. Far right...

The caduceus staff is carried by Hermes in Greek mythology, and carried in Mercury's (the messenger of the gods aka hormones from the pineal and pituitary). guide of the dead and protector of merchants, shepherds (Jesus), gamblers, liars and thieves.

Exodus 7:10 So Moses and Aaron came to Pharaoh, and thus they did just as the LORD had commanded; and Aaron threw his staff down before Pharaoh and his servants, and it became a serpent.
