# Black WHOle HEARt

Humanity carries God in her/himself as a potentiality!

# Humanity's Origin Story

You are a Crystalline Being with many FACeTS whose Unity/Oneness has been Fractured. Identical to a crystal, each face is separate but part of the one crystal. When Fractured your perception of yourself and the world around you is bent or twisted. This leads to Dispersion where your totality is divided.

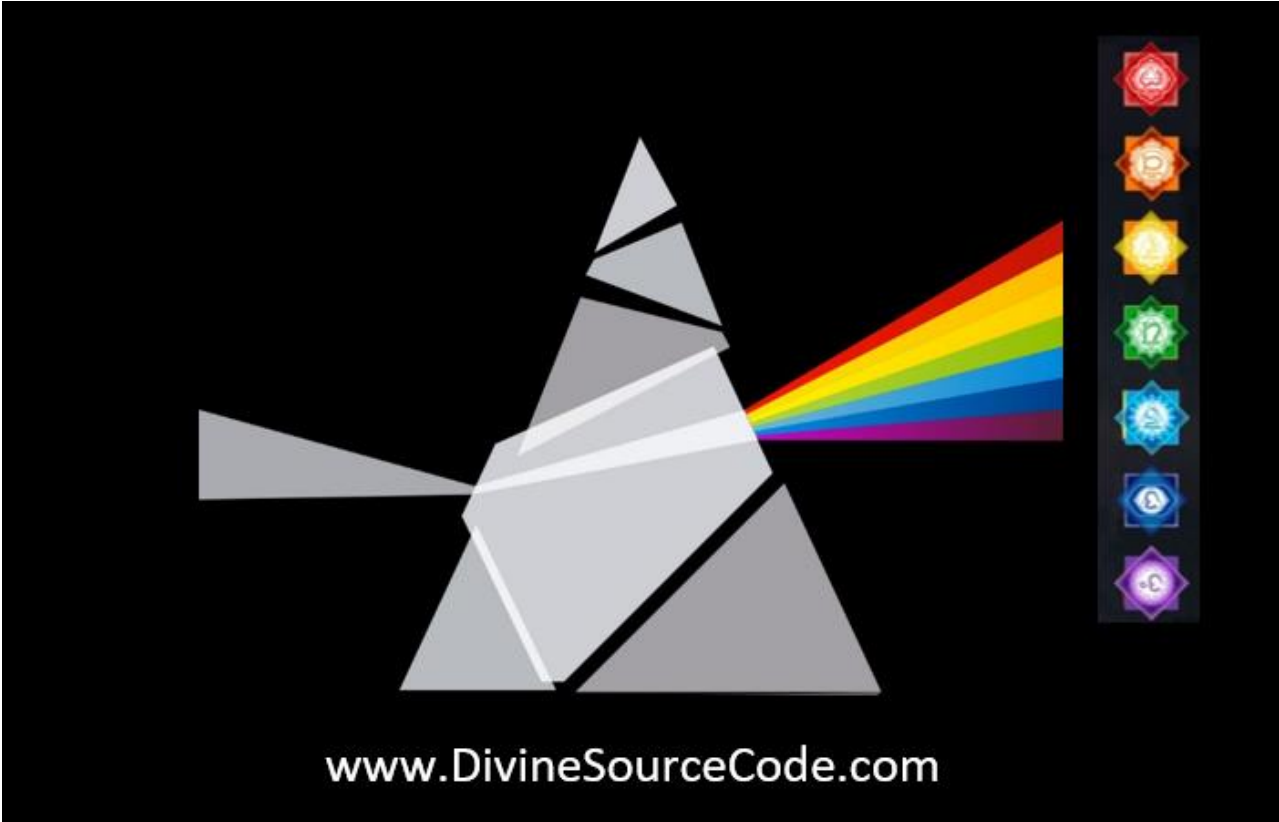

In Genesis 3:5 you find the metaphoric story of this Dispersion / Expulsion. Also known as Separation from our Creator.

Perceiving yourself as Separate is the beginning of the Fall from Grace (Conscious Unity with Source). As a result of Dispersion, you and your life are Fractions of what they were initially intended! Unaware, one generation feeds the next the fruit of Right and Wrong.

“Out beyond ideas of wrongdoing and rightdoing there is a field. I'll meet you there. When the soul lies down in that grass, the world is too full to talk about.”

— Rumi.

# SOURCE-CODE

Our energy body is a fractal of the Universe and vice versa!

Rolled up energy aka  
Torsion Tube aka Torah!

Time is a concept (form) of the ego. Over identification with form (material) disconnects us from spirit (our essential self).

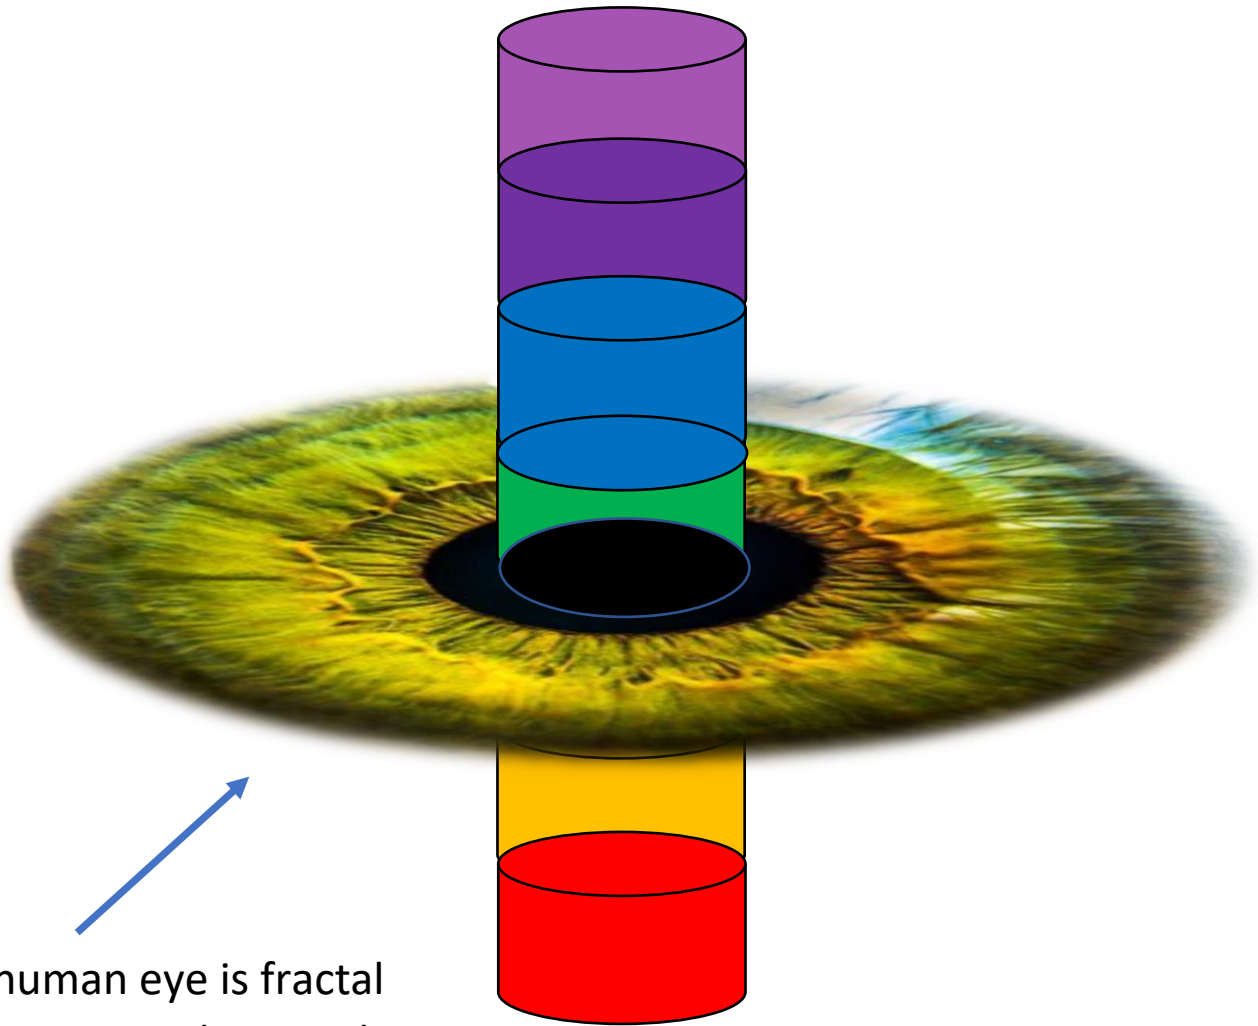

The only true moment (now) is a fine razor's edge resting between the past and the present.

This is the only space where the essential self, the one 'I', can be found.

## EYE OF THE BEHOLDER

Everything is fractalic reflective. The eye is no different. You can read the eyes, the hands, the feet, the ears and more to see the state of the heart.

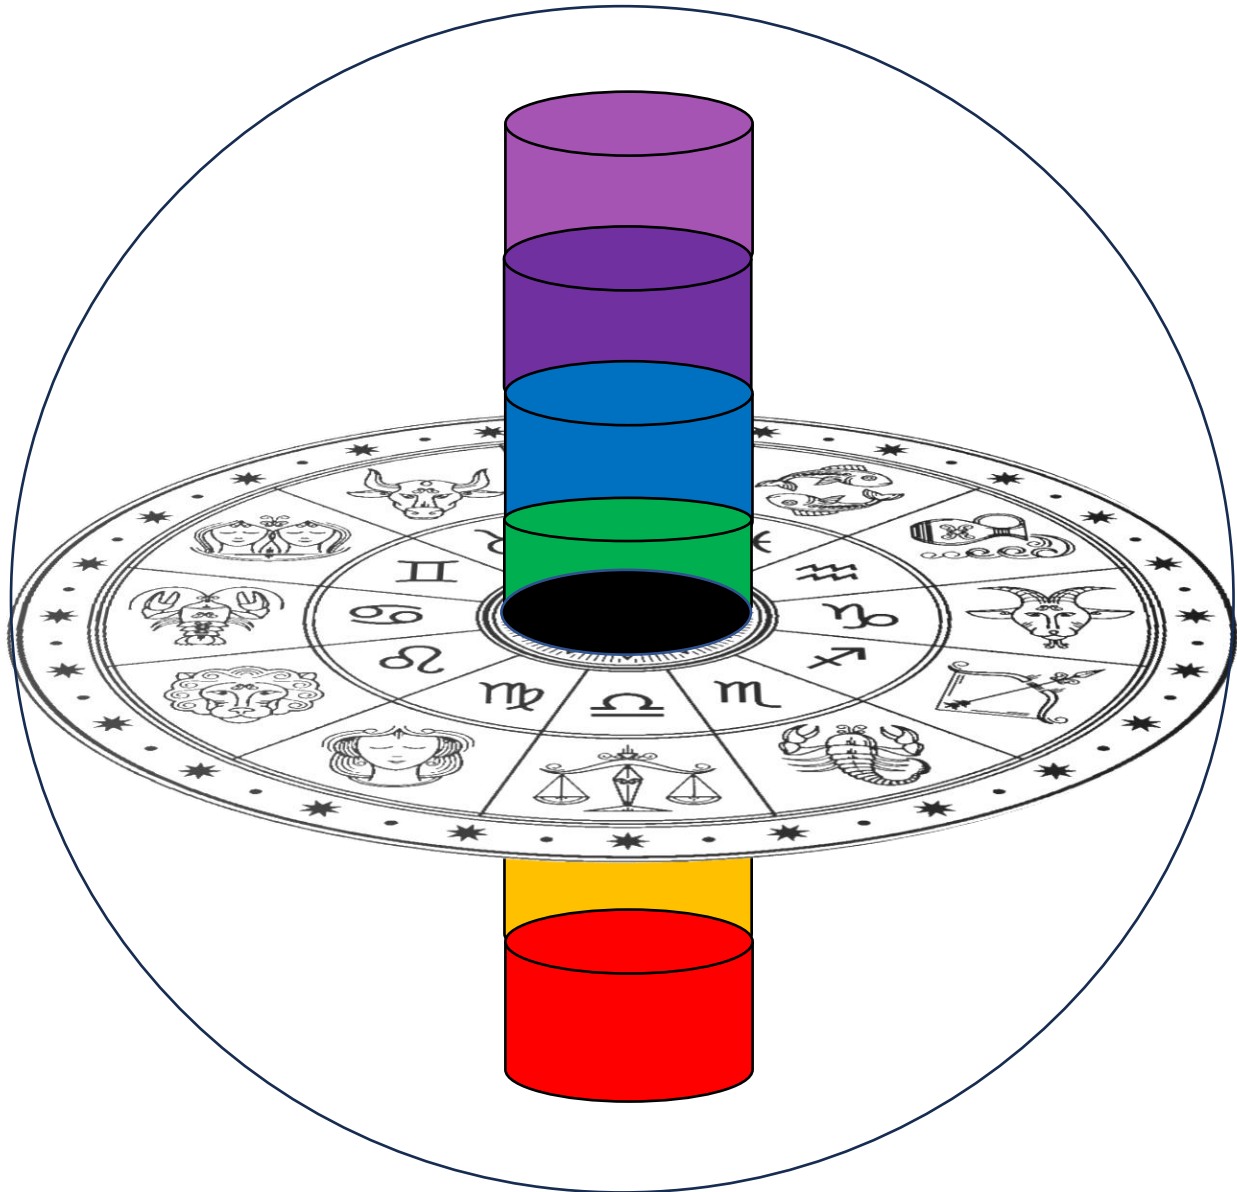

The human eye is fractal  
of the Inertia Plane at the  
center of our being...

# ASTROLOGY

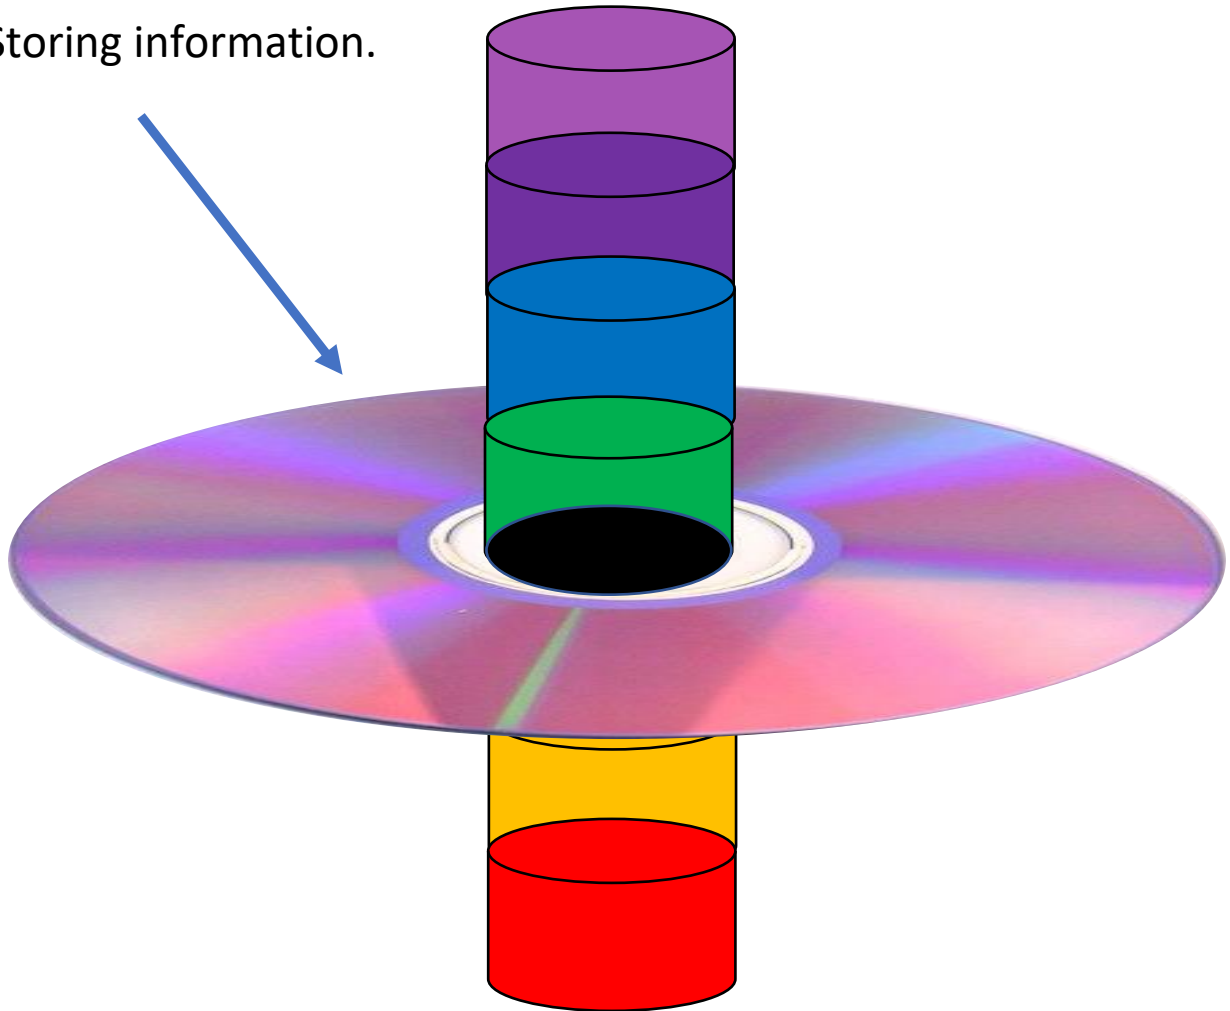

The story of us in-divid-u-al terms and as a Soul-are Family!

Astrology is yet another fractal of stored information.

# CD

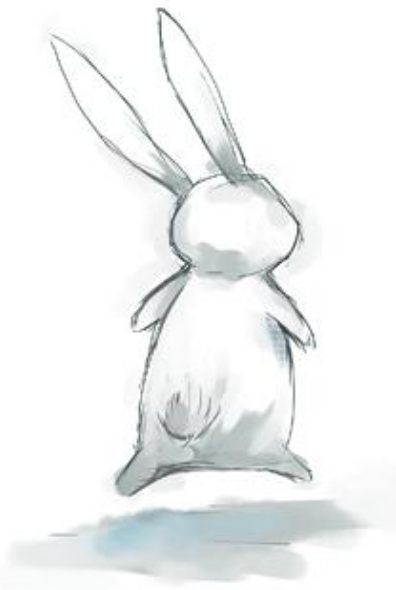

The Inertia Plane is like a CD...Storing information.

Some still say the world is flat.  
Understanding the Inertia  
Plane, one can see that it can  
be both flat and round.

## BLACK-WHOLE

At the center of our being, like the galaxy, is a blackhole. It is the Yin/Womb that all is born from! We have the same Divine Blueprint as our Galaxy. The center of our Heart is like magic top hat that we can put things into and pull things out. According to our heart's vibration!

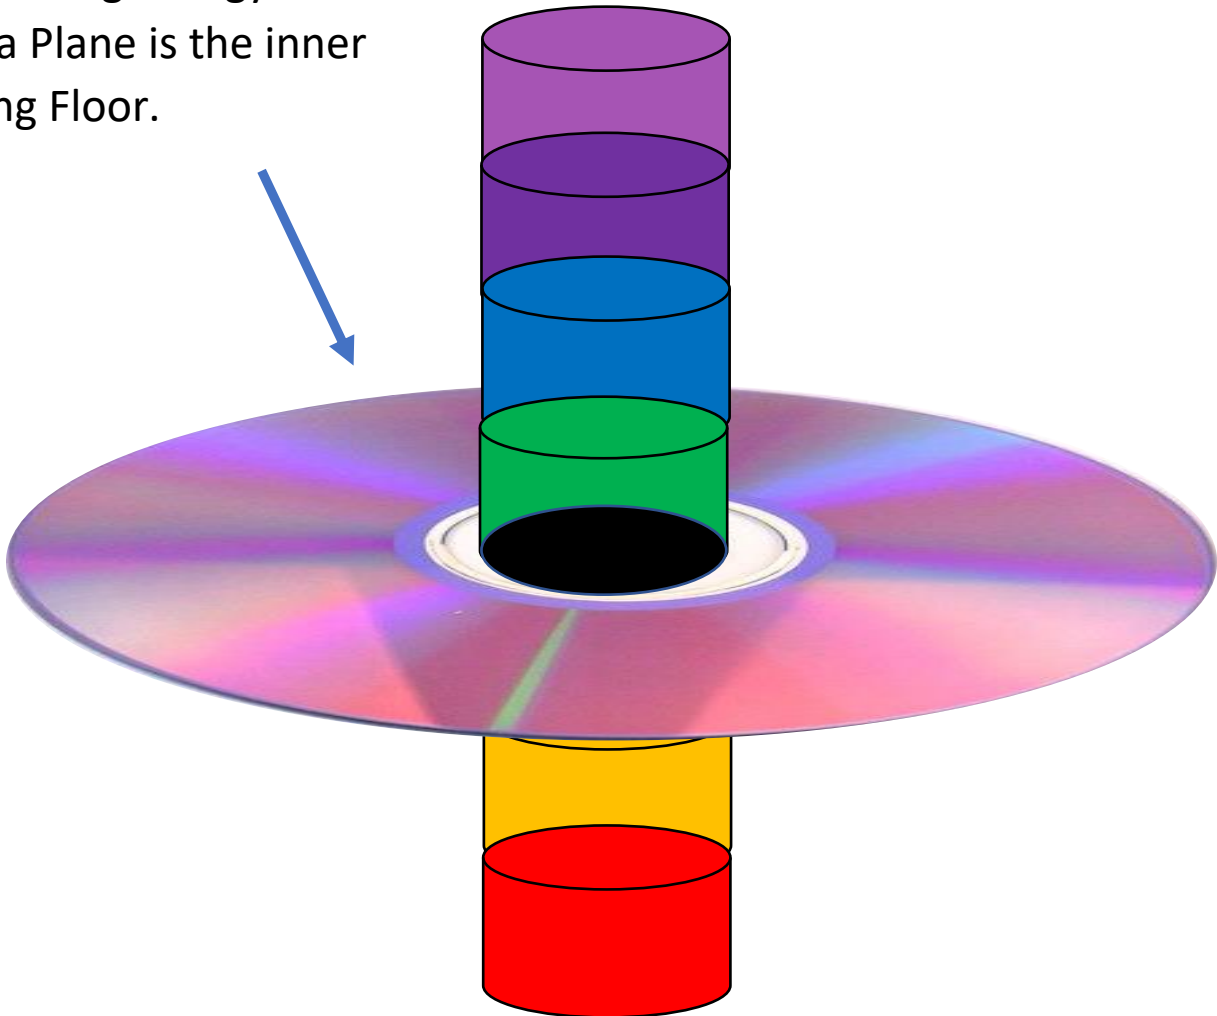

The Blackhole is where all of existence is one. It is the namaste' space; "When you are in that space in you and I'm in that space in me we are one." One with God!

Black Hat – Black wHOLE that we put and pull things into our reality.

Follow the White Rabbit down the Rabbit-Hole!

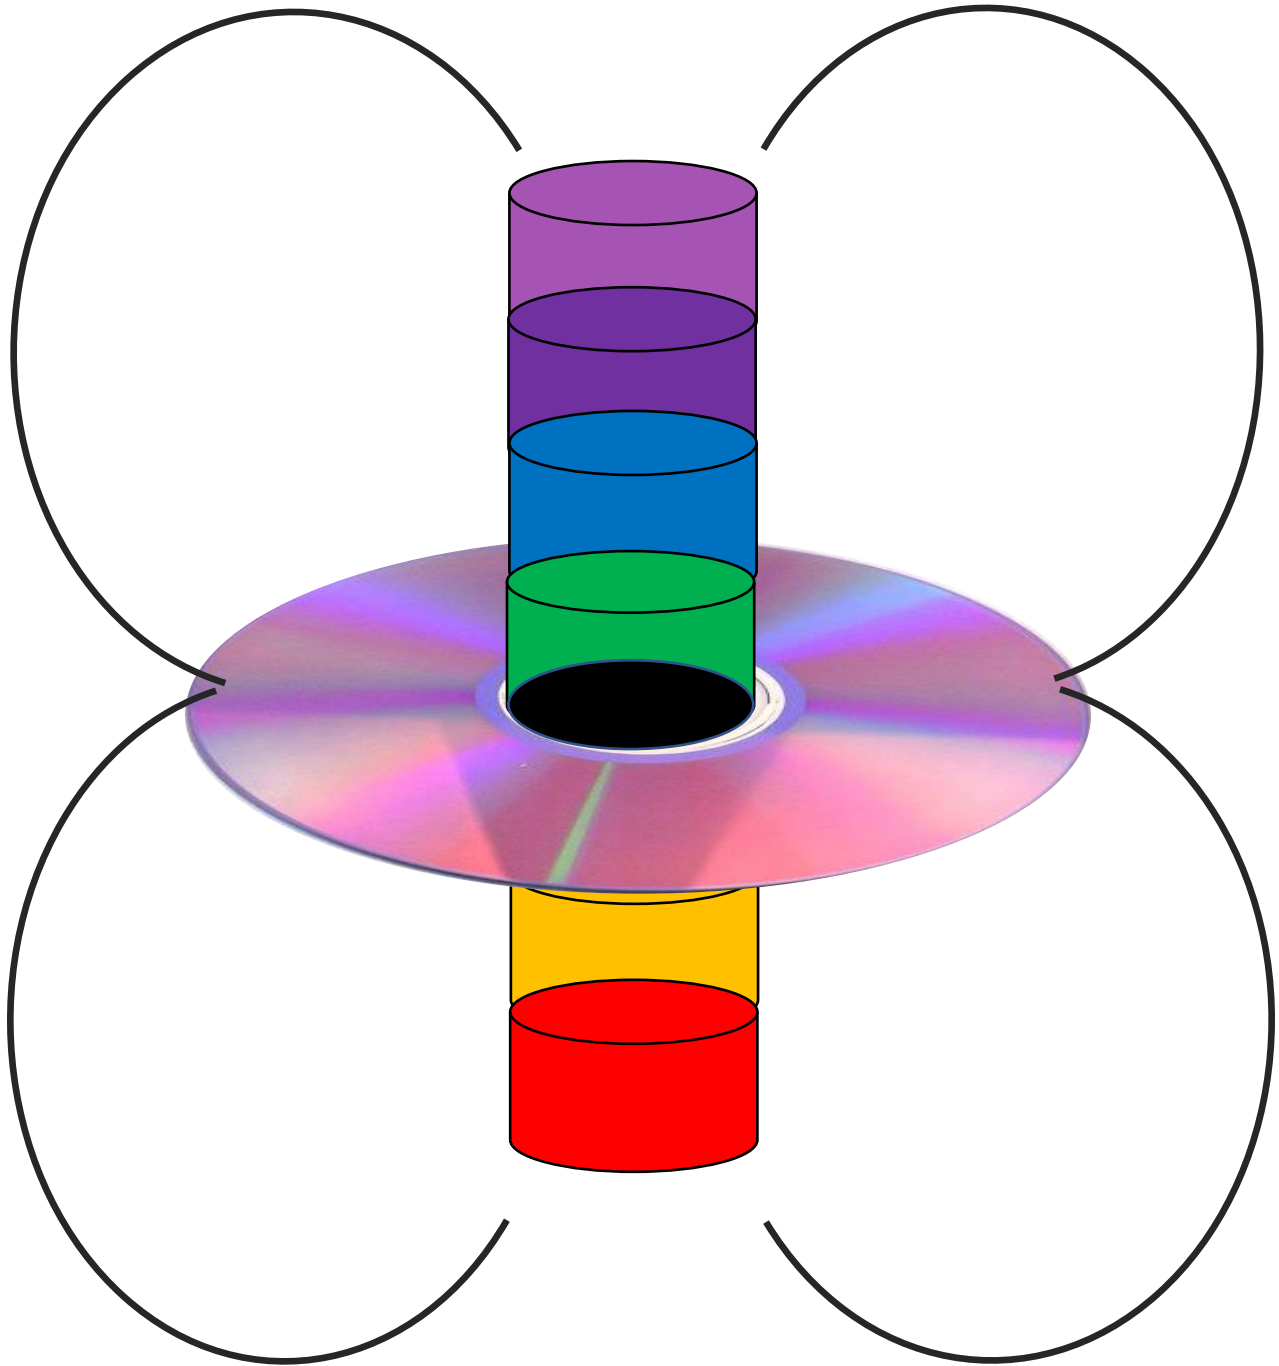

# GLASSFLOOR of TRADING

The swirling energy of the Inertia Plane is the inner Trading Floor.

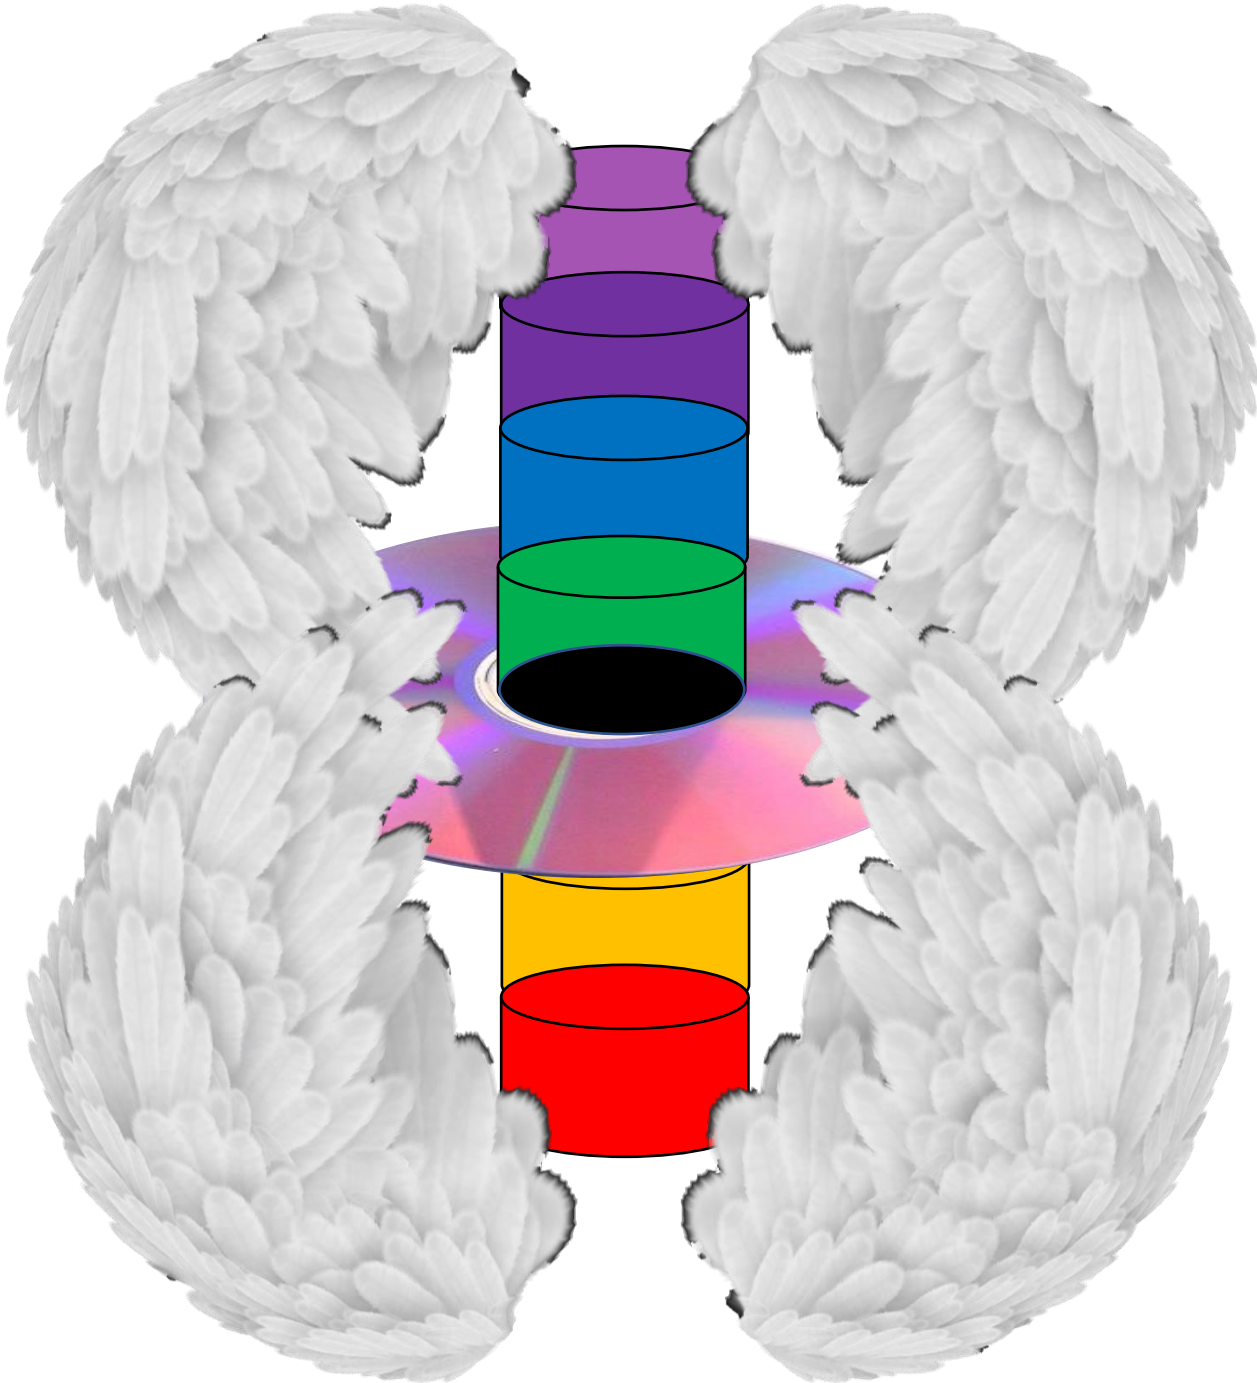

A trading floor is a place in the spirit realm where people give some something and get something in return. It may be positive or negative.

# toRAh Magnet Pull and Push

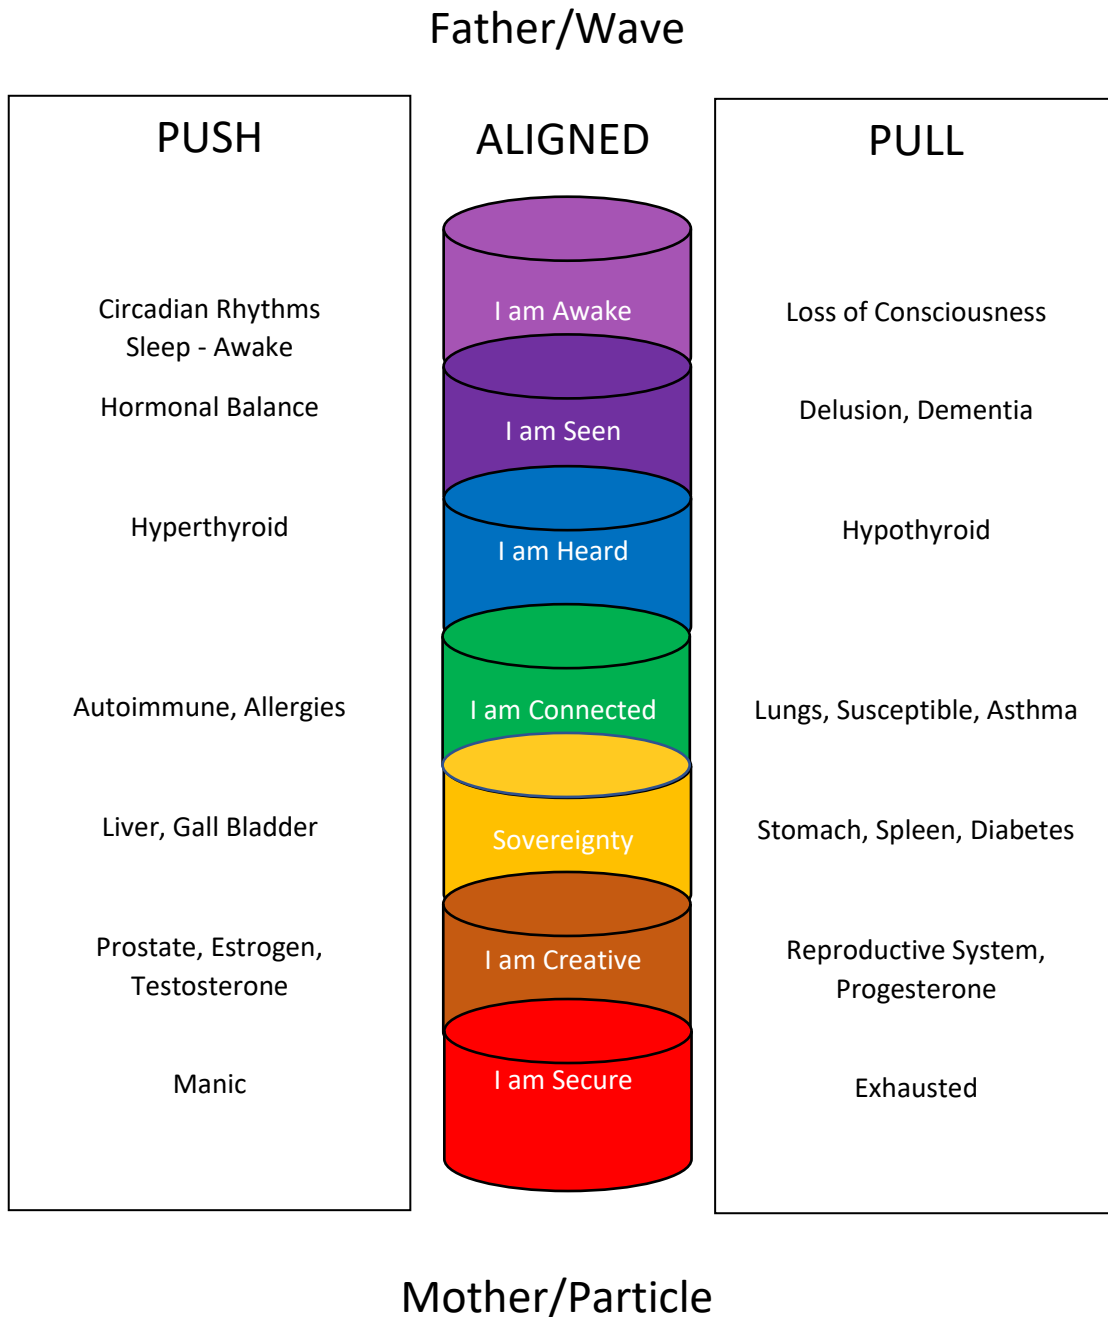

The false perception of separation for our creator leads people to develop coping patterns. We erroneously appoint people and institutions as our Source of that which we need and desire.

Father reaches down through the feminine to know self.

"Holla Back now!" - God

SPIR(itu)AL

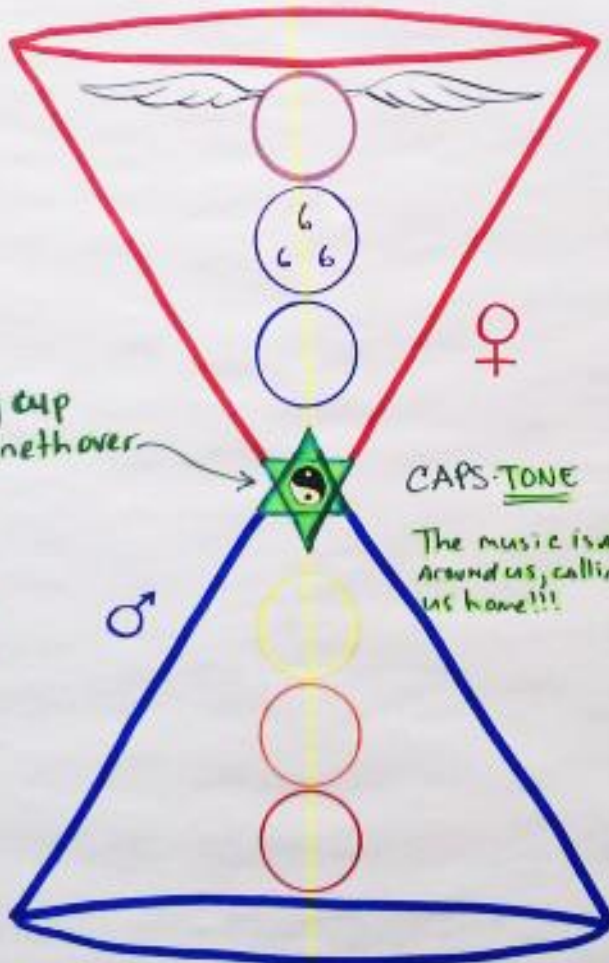

wave = metaphysical

Hologram = messages in empty space!

my cup runneth over

When our vibrations (thoughts, visuals, words, will, creativity, & actions) are in right accord (HARMONY) we are vessels of God!

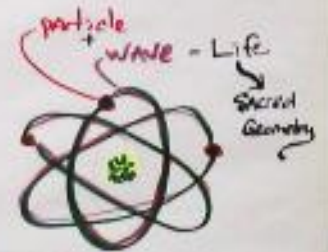

ADAM & EVE    ATOM & TIME

CAPS-TONE

The music is all around us, calling us home!!!

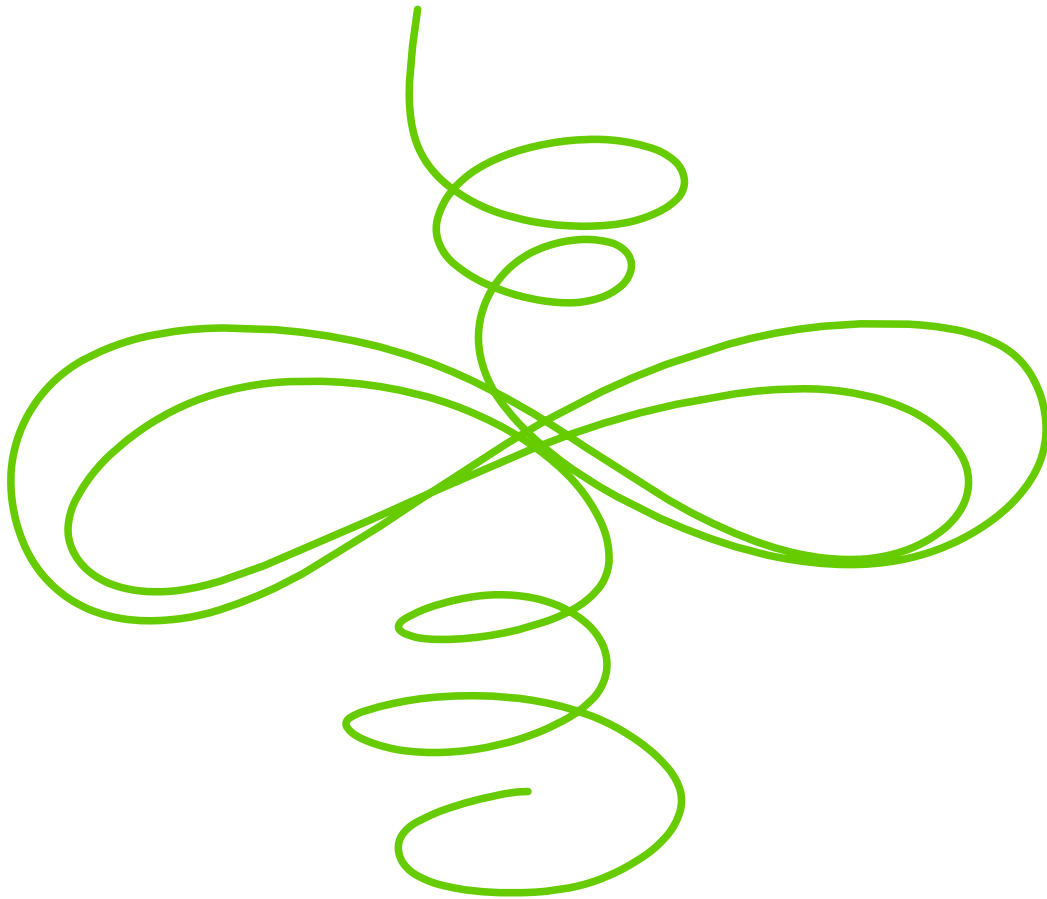

Sun (sons & daughters) of God ↔ Fractal

Earth's core = particle = matter (lat. for motion)

Mother reaches up through the masculine to touch self.

# STARseedLIGHT

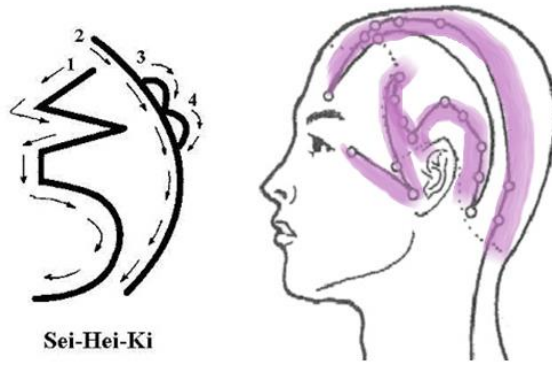

Martyr = “Look at me.”

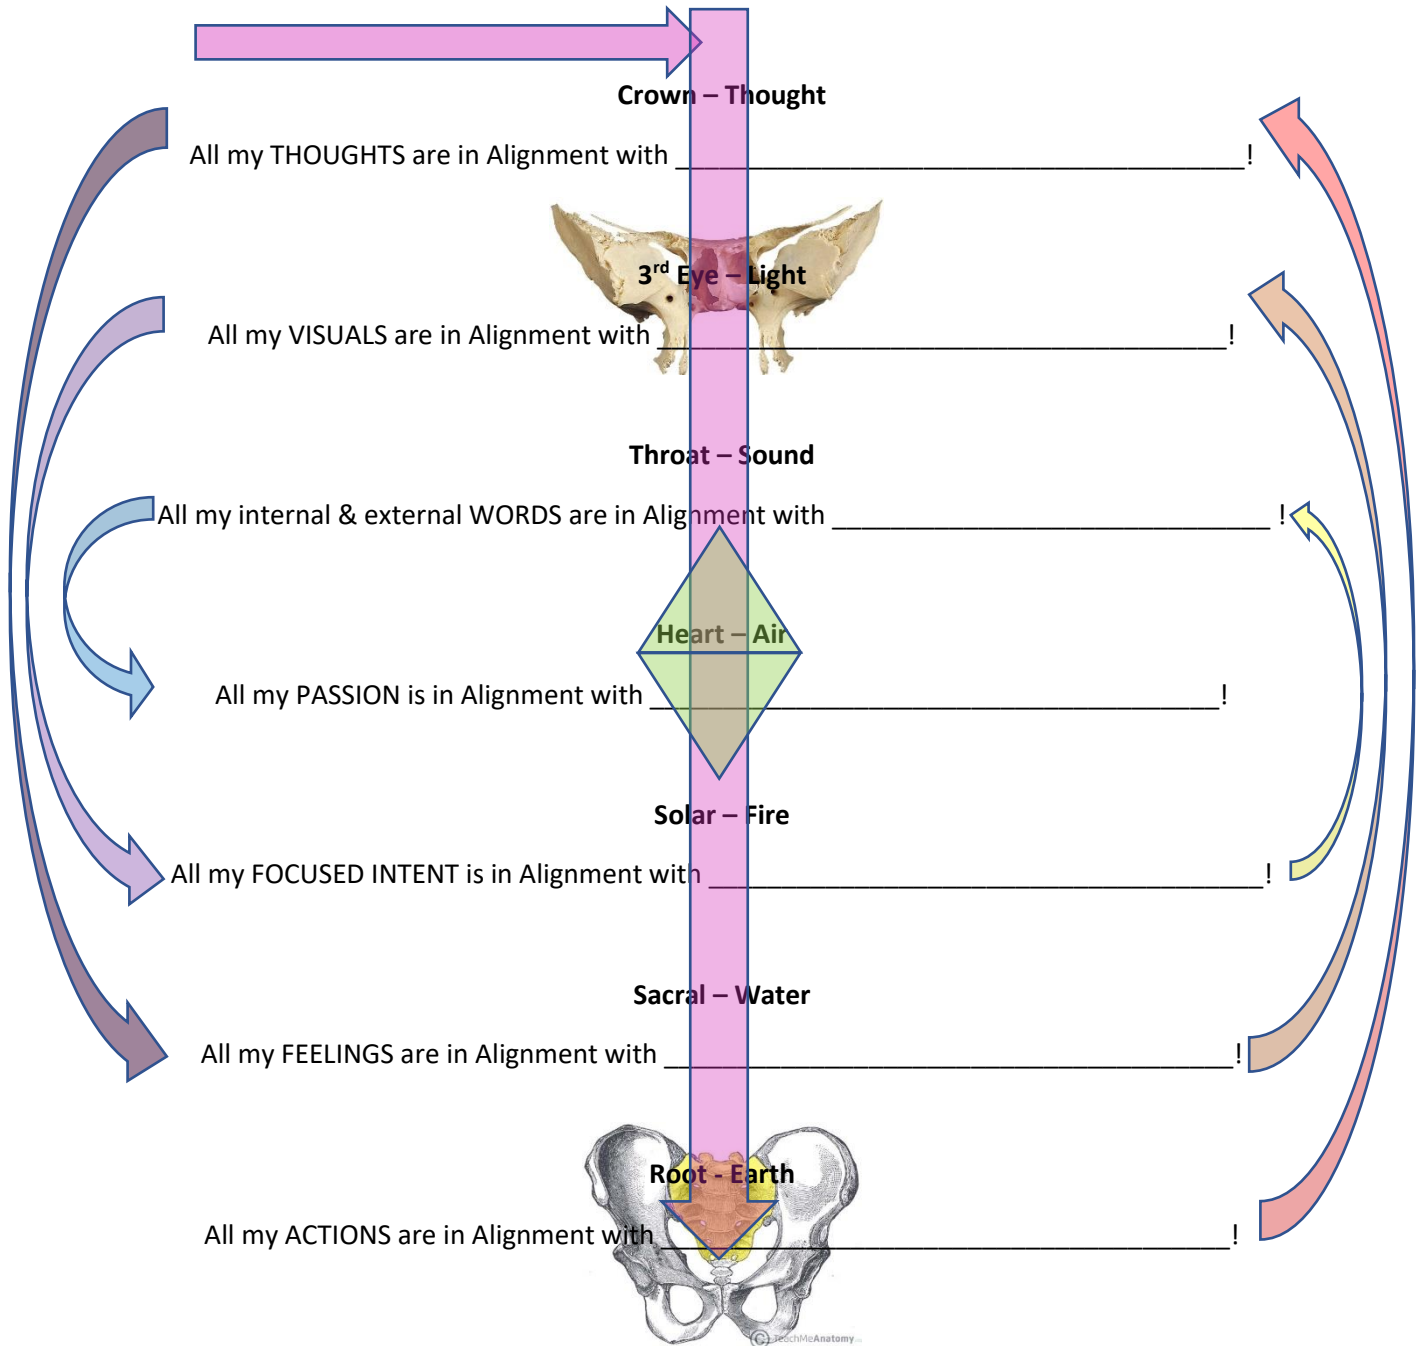

Master = “It is me.”

A Master is not caught up in the External Environment, because s/he is not dependent on it. When s/he is completely aligned they impact and change the environment for the better!
