The Pituitary Gland & Essential Oils

The pituitary is often called the master gland and controls most of our hormone functions such as our temperature, thyroid function, growth, urine production, testosterone (men), ovulation & estrogen (women).

How essential oils can reach the pituitary gland

1. Smelling - the molecules from the oils will go directly to the pituitary gland
2. Roof of the mouth - put oil on thumb & press against the roof of the mouth will be absorbed into the blood
3. Under the tongue - the oil will be absorbed into the blood
4. Middle of the eyebrows - the oil will raise the frequency of the pituitary
4. Crown & back of head - the oil will raise the frequency of the pituitary

Menorah

7 Seals in Revelations

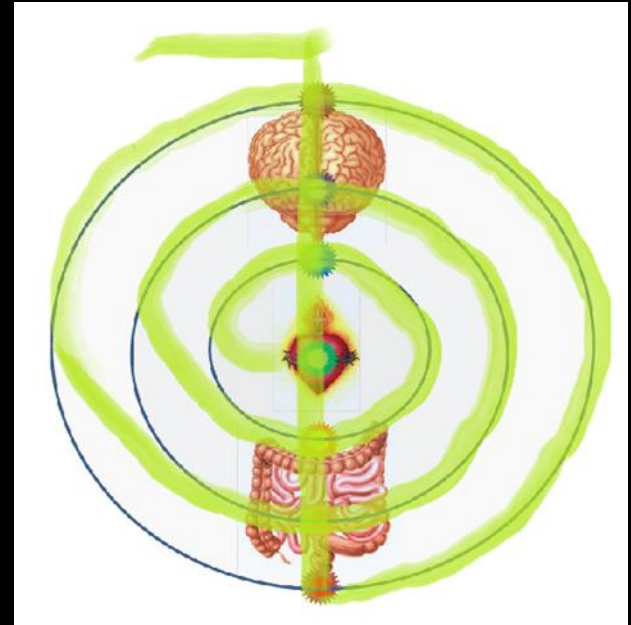

7 Chakras

The menorah (Hebrew: **מְנוֹרָה**) is described in the Bible as the seven-branched candelabrum made of gold and used in the portable sanctuary set up by Moses in the wilderness and later in the Temple in Jerusalem.

The lamp stand in today's synagogues, called the ner tamid (lit. the continual light, usually translated as the eternal flame), symbolizes the menorah. The menorah is always lit using the center candle, which would be the heart chakra.

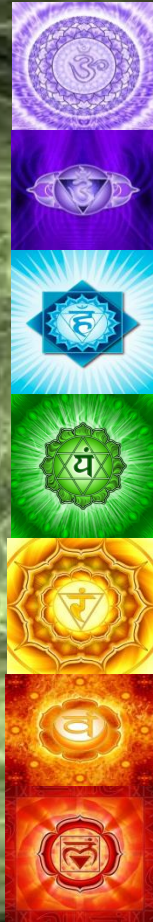

Alignment

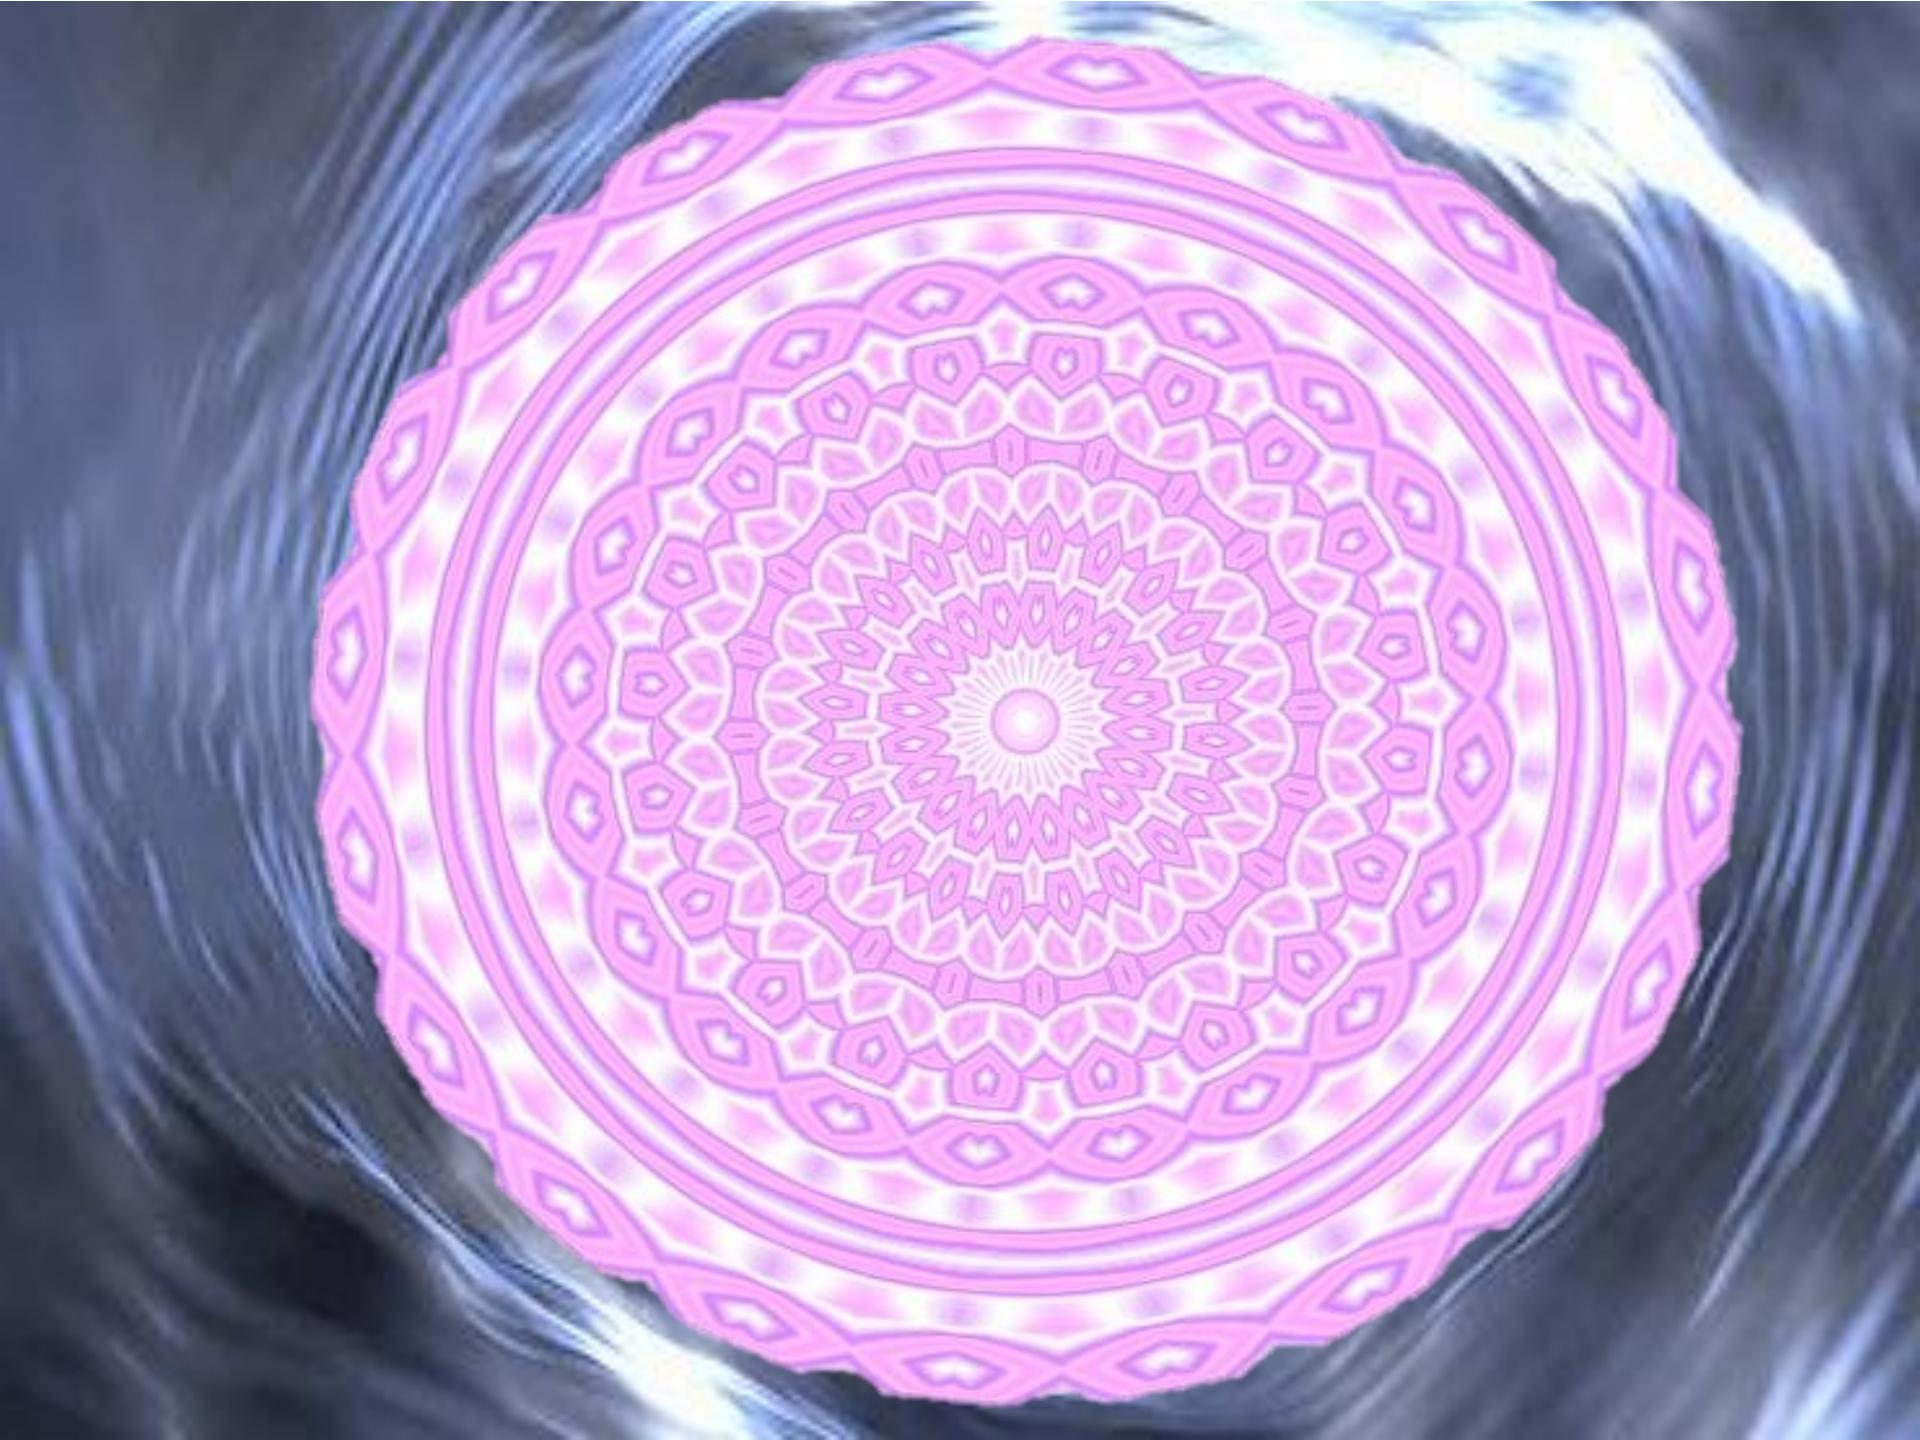

The Reiki Symbol Cho Ku Rei fits perfectly over the menorah. Coincidence? I thinkith not!

I honor that place in you
Where when you are in that place in you
and I am in that place in me
WE ARE ONE!

We are made of the same Star stuff, we breathe the same
Air, walk on the same Earth and drink the same Water.
